Re: Icicle Seafoods, Inc., Larsen Bay Seafood Plant, APDES Permit No. AKG520047, Notice of Coverage and Authorization to Discharge

Dear Mr. Lee:

Permit AKG520000 became effective on July 27, 2001. On October 31, 2008, the administratively extended permit transferred to DEC authority. Your unique identifier under this permit is provided above and on the enclosed title page of the permit. Please use this designated number and associated DEC File number in any correspondence with or reporting to DEC.

The Alaska Department of Environmental Conservation (DEC) has received and reviewed your updated January , 2013 Notice of Intent (NOI) to be covered by APDES Permit AKG520000, the general permit for Alaskan seafood processing facilities.

Icicle Seafoods is authorized to discharge seafood waste as specified in the December 7, 2012 Notice of Intent. The seafood processing waste discharged shall meet all the requirements as set out in the AKG520000 general permit including Part V. C. Shorebased Seafood Processors.

The permit includes an **effluent treatment requirement** of grinding solid seafood processing wastes to one-half inch in all dimensions before discharge, a **effluent limit** of less than or equal to the pounds of seafood processing waste residues per calendar year specified in the NOI, a **prohibition on the discharge** of petroleum, hydrocarbons, oil and grease, and a narrative limit on the violation of Alaska Water Quality Standards (see Permit Part II). The permit requires that you develop and implement a **best management practices plan** that controls and reduces pollutant discharges at your site (see Permit Part VI.A). The permit requires that you submit an **annual report** on seafood processing activity, discharges, noncompliance, and process changes (see Permit Part VI.B).The permit requires that you conduct periodic monitoring of the sea surface, seashore, and seafloor in accordance with your type of facility (see Permit Part VI.C and D). We ask for your careful review of the various areas throughout the State of Alaska which are excluded from coverage by this APDES permit due to their characteristics as either special or impaired habitat.

The department has both an informal review process and a formal administrative appeal process for final APDES permit decisions. An informal review request must be delivered with 15 days after receiving the department's decision to the Director of Water at the following address:

Director of Water
Alaska Department of Environmental Conservation

555 Cordova Street
Anchorage, AK, 99501

Interested persons can review 18 AAC 15.185 for the procedures and substantive requirements regarding a request for an informal department review. For information regarding appeals of department decisions follow the link:

http://www.dec.state.ak.us/commish/ReviewGuidance.htm

An adjudicatory hearing request must be delivered to the Commissioner of the Department within 30 days of the permit decision or a decision issued under the informal review process, whichever is later. An adjudicatory hearing will be conducted by an administrative law judge in the Office of Administrative Hearings within the Department of Administration. A written request for an adjudicatory hearing shall be delivered to the Commissioner at the following address:

Commissioner
Alaska Department of Environmental Conservation
410 Willoughby Avenue, Suite 303
Juneau, AK 99811-1800

Persons and organizations interested in requesting an adjudicatory hearing can review the procedures and requirements found in State Regulation, 18 AAC 15.200. For information regarding appeals of Department decisions, the following link is provided: http://www.dec.state.ak.us/commish/ReviewGuidance.htm

Any reports of noncompliance with permit requirements shall be reported by telephone to DEC to the following location:
