Re: NPDES Permit No. AK-G52-0337 – Atka Pride Seafoods

Please note that the Notice of Intent (NOI) for Atka Pride Seafoods (APS) should be amended under Section 6 – Projected Production Information and Section 8 – Projected Maximum Quantity in lbs of Processed Waste Solids that are Discharged. APS is projecting to process Pacific cod, crab, and increase production of sablefish and halibut in 2013. Amendments to the attached NOI reflect the increased production information and increased process waste solids that are to be discharged. APS anticipates a January 2013 opening for processing Pacific cod. Halibut and sablefish processing increases will be realized in the spring and summer of 2013, while crab processing will commence in the fall of 2013

If you have any questions or concern, please contact me.

Sincerely,

Larry Cotter, CEO

Cc. Fran Roche, ADEC
