It shows as complete now thanks.

We were deciding whether we were going to need the vessel in 2016. We are unsure at this time, but we are going to request authorization and pay the fees since the GP will be expiring this year and we want to ensure we have administrative permit coverage.

The last few authorizations included authorization end dates. With the GP expiring in 2016 I request that they do not have expiration dates until we get actual other permit coverage, for example from the Shorebased GP as potentially proposed to authorize inland water discharge.

Shawn

Hi Shawn,

I can set the payment status in OASys and it should push the NOI through. Let me enter that payment as received and the invoice WQ161728 and you should see the NOI documents come through shortly.

Jackie

Jackie, I just e-signed the OFSH-0216 NOI but forgot to change the authorization fee paid from No to Yes before locking the NOI. I have approved the payment of Invoice WQ161728, even though payment may not have been received by DEC yet. Is there a way to process/complete the existing

NOI without creating a new NOI?

Thanks

Shawn
