 Name: **Von Frank** Cause: Lightning

222ME reports the fire to be 5% active, creeping, and smoldering following rain showers which occurred shortly after the fire was initially reported. 222ME also located a cabin and an outbuilding approximately 7 miles SW of the fire. Helicopter 212HL launched to assess another reported cabin, but due to time constraints was unable to locate it. The fire will be flown tomorrow to asses near by structures and whether or not point protection will be applied.

The Northstar crew replaced the load of SMJ's today. There was no acreage gain but still lots of smokes within 100 feet of the perimeter. The fire is currently 50% contained and the crew continued building sawline and securing the fire. A 0.5 acre spotfire 400 feet north of the main fire was secured today and should be 100% out tomorrow. Mop up is slow due to heavy fuels and spotty perimeter. Estimate control by 7/1.

Crews continued to improve existing lines and mop up 50 - 75 feet around the fire perimeter. Gusty winds and convective heating caused dust devils in the interior of the fire. Resources will continue mopping up 150 feet in on the West, East and North flanks of the fire tomorrow. The fire is now 40% contained.

The four man crew continued to secure the safety of multiple structures. Due to increased fire behavior, J-66 was launched from McGrath to assist with structure protection. Eight jumpers were deployed and reported that the fire had bumped the runway. Due to smoke, the visibility was poor and an accurate size-up could not occur. Plans for tomorrow consist of N904AK shuttling supplies out, if visibility allows, and assessing whether or not more action needs to take place.

One load of smoke jumpers were inserted 12 miles east of the fire to prep a structure complex with hoselay and sprinklers. They will also build a contingency line behind adjacent allotments. Crews are now working 300 feet in, by mopping up the burnout which occurred days ago around Lime Village. This portion is expected to be done 6/27. Tomorrow the crews will also work on the south and west sides of Lime Village to be prepared incase the fire jumps the river. 222ME reports creeping fire behavior with single tree torching and spotting along the perimeter. Unable to check the east/southeast part of the fire due to reduced visibility.

At 2140 the fire was reported by a local resident at the village of Shaktoolik. The fire was located approximately 12 to 14 miles northwest of Shaktoolik. Commander 4MN was dispatched along with T-885. At 2257 4MN reported 100% active perimeter backing, running, and group torching in black spruce and tundra. 4MN reported campers on the river with a boat at 64 34.34 x 160 27.89. The fire plotted in modified suppression management area and it was determined that action needed to be taken. T-885 dropped water on the fire until the end of the operational period.

At 1840 Galena Zone helicopter N508EH discovered the fire while departing Galena en route to fire 377. Smokejumpers in Galena were dispatched to the fire. It was determined by the BLM FMO to conduct a non-standard response due to allotments in the area. Eight smokejumpers were delivered. Helicopter N911CV responded with a bucket. FireBoss T-885 was dispatched from Nome but thereafter diverted to Galena for standby. Smokejumpers estimated the size of the fire to be 1.9 acres at 2015.

The fire was reported by a private pilot. Air Attack 999FG and helitack 973 responded. Upon arrival Air Attack reported a one acre fire burning in mixed hardwoods and spruce with one road accessible cabin imminently threatened and multiple other cabins in the vicinity. Two Forestry engines responded and a load of retardant was requested. The helitack crew walked into the fire while 973 worked the fire with buckets. Due to duty day limitations, T-44 was unable to drop. The fire was burning very deep and personnel worked into the early morning to secure the line. Containment is estimated for the afternoon of 6/26. The fire was caused by a debris burn that appeared to have been burning for quite some time.

Forestry responded to a fire North of mile post 324 Parks Highway. The fire was aggressively attacked by both air and ground resources. At the time of report personnel were still engaged with suppression, the fire was 150 acres with 100% active perimeter and 15% contained. A retardant line is in place and multiple dozers will work throughout the night to construct line.

Midnight Sun IHC completed half of a contingency line w/ pumps and hose south and west of Lime Village and will continue to the North tomorrow. Winema HS gridded 300 feet in along the 6/19 burn out east of Lime Village and the Shageluk Crew gridded 300 feet in along the contingency line north of the village along Stony River. Smoke Jumpers put in a contingency line and initiated structure protection around a group of 10 buildings along the Stony River 10 miles upstream of (to the SE) of Lime Village. Minimal acreage gain on the east flank, with an undetermined gain on the north side, which was obscured by smoke.

Personnel in surveillance aircraft N40HU reported the fire had blown out on the north side of the fire. The 100% active fire was burning in the valley bottom. The fire was being driven by a northerly wind. Air Attack B-7, T-891, T-264, T-262 all responded to this fire with several water drops until they were diverted to higher priority incidents. The military responded with two fire engines. Later in the evening T-267 responded from Bettles for several water drops. Military operations were shut down due to fire activity and military resources are threatened. Aerial resources have been ordered for 6/26. Personnel will continue to monitor the fire, prepare for burnout operations, and utilize aerial resources to accomplish the objectives.

Legal: 32N 6E 32 S Out Date:  
#417 Owner: NCA Admin: Ciri Corporation  
Name: **Wantana** Cause: Lightning

The fire was reported by a private pilot as two to three acres burning near the confluence of the Susitna River and Wantana Creek. Air Attack 9FG and helitack 973 were dispatched. 973 developed mechanical problems and diverted to Willow. Upon arrival of Air Attack the fire was 40 acres, running and creeping in black spruce with continuous fuels. H-70NW, helitack 212TH from Kenai, tankers and smokejumpers were requested and responded. 212TH developed mechanical problems and returned to Palmer. T-45 delivered one load of retardant and J-07 delivered 6 smokejumpers. While J-07 was in jump operations, the fire began to receive heavy precipitation and additional tanker drops were cancelled. Heavy precipitation received on the fire. Due to the lateness of the day along with the heavy precipitation, the smokejumpers initiated minimal suppression activities.

Legal: 17N 4W 12 S Out Date:  
#407 Owner: PRI Admin: PRI-Private  
Name: **Horseshoe Lake** Cause: Human

The fire was reported by Palmer 911 as a growing brush fire. Two forestry engines, helitack 973, forestry prevention, and Lakes FD responded. Lakes FD arrived on scene first and was able to get a hose lay around the fire to knock it down. Helitack 973 arrived at the fire, but was no longer needed and was, therefore, released upon arrival of one forestry engine. The other forestry engine was code greened. The fire was smoldering at 0.2 acres in slash and old burn. Prevention arrived on scene to do an investigation of the fire; the cause is undetermined. The personnel of the forestry engine did extensive mop up of the fire, calling it contained and controlled. The fire will remain in monitor status due to heavy concentration of fuels and deep burn.

A Type 3 team assumed control of fires 359, 360, and 376. One command repeater was installed at fire 360. Structures around Lake Minchumina continued to be assessed and structure protection was initiated. Currently the limited number of available resources will limit the number of structures the resources are able to engage. Additional Hotshot crews and Overhead have been ordered for this fire.

Yesterday's burn was mopped up fifty feet in. Smokejumpers will continue to hold and mop up the burnout that was completed around the cabin. Allotments on Chilchukabena Lake will be evaluated for feasibility of protection. Operations on this fire will be managed by the Type 3 Team located in Lake Minchumina in conjunction with Fire 360 and Fire 376.

The fire was burning in the river valley. It was most active on the eastern flank. Air Attack B-7, T-264, T-262 and T-267 responded to this fire with several water drops. N40HU reconned the fire later in the evening. The fire is wind driven, continuing to creep through hardwoods. The plan for tomorrow is to monitor progress toward the ridgetop road system and to establish site protection.

Extreme fire behavior and heavy resistance to control were observed. The fire continues to grow spurred by Red Flag weather conditions and extreme fire indices. Closure of the Parks Highway in effect in the fire area. At time of report personnel were engaged in a backfiring operation on the North side of the Parks Highway. Tomorrow a contingency line will be put in place and a combination of direct and indirect strategies will be supported heavily from the air.

Fire slowly moving SE. Action is being taken at 2 sites on the eastern tip of the fire. Firefighters secured the cabin near the middle of the Wild Bill runway as the fire burned by. There is still 1 mile of unburned fuel between the fire and the house North of the runway. SMJ's are prepping 3 cabins and 3 outbuildings on a lake south of the runway. The fire is still 1.5 miles away from this site. Moderate fire behavior observed today, creeping with single tree torching and very light precip around 1700. Firefighters will continue with structure protection 6/27.

The fire spotted south across the Stony River 5.5 miles upriver (E) from Lime Village this evening. Detection reported that this was influenced by outflow from a nearby thunderstorm. Air tankers were initially ordered and then cancelled. A crew supported by 2 helicopters with buckets was unable to catch the new spot fire on the S side (Lime Village side) of the river. The Midnight Suns worked on improving the contingency line west of Lime Village and the Shageluk Crew completed prepping the primary contingency line N of the village. 7 of the 8 SMJ's came off the fire today and the remaining jumper stayed as a STL to work with Winema IHC plumbing remote cabins 10 miles upriver from Lime Village. This fire has gained 90,000 acres in the last 3 days.

Forestry personnel worked the fire today, confirming the size at 1.3 acres. A 50' perimeter was made around the fire with a few interior smokes found. One engine was released and returned to base. Helicopter 973 shuttled the short squad out to the fire with some supplies. There were some erratic winds on the fire when a thunderstorm moved through. The IC called the fire contained at 2000 and controlled at 2200. The personnel plan to do a final grid on the fire in the morning of 6/27, and demob the remaining personnel if no hot spots are found.

The fire was reported by Palmer 911 as a structure fire with possible spread into the wildlands. Lakes FD, Big Lake FD, three forestry engines, and 70NW responded to the fire. Lakes and Big Lake FD arrived on scene first and started working on the structure fire. Upon arrival of one forestry engine, it was determined there was minimal spread to the wildlands at 0.1 acres; it was smoldering and in mixed hardwoods. One engine was continued while the other engine and 70NW were code greened. The forestry personnel on scene gridded the green and found 7 spot fires. The fire was contained, controlled, and called out.

The fire was reported by Air Attack 999FG while enroute to Palmer from fire 445 as .3 ac, creeping in continuous fuels. H-70NW responded from Talkeetna. 70NW worked the fire with buckets while the manager/technician began the two mile hike into the fire. A helispot was cut a half mile from the fire and H-352EV shuttled in a 5-person short squad from the Mat-Su crew. The short squad arrived on the fire too late to hike into the fire and begin suppression action. Suppression action will commence the morning of 6/28.

The smokejumpers worked through the day securing the line and constructing a helispot large enough to accomodate a National Guard Blackhawk. The plan for the next operational period is to demob the smokejumpers and replace them with Lassen IHC and a state IC using National Guard resources. The fire size was modified due to more accurate mapping.

An international Type 3 organization assumed control of this incident at 0800 this morning. The incident is being managed under a unified command between the State of Alaska Division of Forestry and Wildfire Management, Yukon. An ICP was established in the community of Beaver Creek, Yukon. In Beaver Creek the BC IA crew and dozer completed improvements to the fireguard (fuel break) surrounding the community. Whiskeytown continued to improve protection around identified sites. Incident resources assisted Tok Area with initial attack of a lightning ignition within the M.A.P. response area.

Structures and mines in the fire area have all been prepped. The Yukon crew is attached, but is being utilized by the Area on higher priority fires. Interior pockets are burning out. Drier conditions allowed for more active fire behavior, 2' to 3' flame lengths with group tree torching. Fire was not mapped due to higher Area priorities.

The fire was discovered on 6/26 by McGrath aerial detection aircraft 1010F. The fire report was sent in to Galena Dispatch and the location was concurrent with MODIS heat signature of the previous day. At 1920 the fire was flown by Air Attack 35E at which time the fire was approximately 20 acres in size, 100% active, running and torching in black spruce. The fire plotted in a Limited suppression management area and was placed in monitor status.

Name: **Chunilna Creek** Cause: Lightning

The fire was discovered by air attack 999FG on 6/26 while returning to Palmer from fire 417. Do to the lateness of the day and shortage of resources, no action was taken at that time. H-70NW responded the morning of 6/27. The fire was .1 acre and smoldering upon arrival. One Forestry technician contained and controlled the fire with the help of bucket support from 70NW. The fire was left in monitor status.

The fire was reported by Palmer 911. Forestry units were requested to respond, but the Butte FD had extinguished the fire before they could do so. One prevention officer responded later in the day and found a 0.2 acre fire that had been put out in hardwoods. Prevention cold trailed the fire and left it in monitor status. The cause of this fire was smoking.

A large number of dispersed structures (40+) and commercial property with guests are complicating protection plans. There was sustained crown fire in SW quadrant until 0300 and intermittent running and creeping after that. Prep work on sites #3, #4, and #8 was completed. Indirect and direct line between Test. Lake and Hoholitna River was initiated to protect western structures along Holitna River. Plan for 6/29 is to complete line between Test. Lake and Hoholitna River and continue site assessments and prep work on multiple structures.

Crews and equipment continued line construction and hose lay installation in Divisions T,B and C, prepared Divisions T and P for burn operations and continued mop up on Divisions P (along the Parks Hwy) and A. Progress of equipment was hampered by the lack of a Thiokol to shuttle fuel. Pilot cars continue to shuttle traffic through the fire area. The fire is now 40% contained.

Higher humidity's and shading due to cloud and smoke cover contributed to reduced fire behavior and growth today. Whiskeytown monitored weather and fire behavior and continued to maintain and improve site protection for identified values at risk. Beaver Creek resources began prepping sites outside the fireguard. Decreased acreage due to more accurate mapping.

Transfer of Command occurred at 0800 6/28/13. Winema IHC continued structure prep along the Stony River. Shageluk secured the perimeter of the 35 acre slop across (S of) the Stony River. On 6/29, half of the Winema crew is moving 12 miles S of the fire into Can Creek drainage to implement structure protection on 5 buildings of an outfitters camp. The Shageluk crew will work the interior of the slop across the river to secure it. The Midnight Suns were moved off of this fire to Fire 443.

Overcast skies and higher RHs caused the fire to spread by creeping with isolated torching. The fire area received no precipitation. Indirect line was completed near Jim lake and structures around Lake Minchumina continue to be assessed and plumbed. 11 smokejumpers were demobed. Fire fighters will recon and prep for burn out operations during tomorrows shift.

Transfer of command took place at 6/29 on 2200. Fire spread continued in all directions with running, backing and single tree torching observed. Although light winds, higher humidities, and lower temps moderated fire activity, extremely dry fuels supported fire spread. Areas of hardwoods previously burned in 2005 supported fire spread on south facing slopes. NE side of fire is .75 miles from the Dalton Highway and Pipeline corridor 4 miles north of Pump Station # 5.

A large number of dispersed structures (40+) and commercial property with guests are complicating protection plans. Fire Bosses helped secure the W flank today. Completed direct line between Testi. Lake and Hoholitna River to protect western structures along Holitna River. Plan for 6/30 is to continue mop up. Yukon squad pulled off of Site #1 and demobed to McGrath. Midnighnt Sun IHC working direct on West flank.

The fire received Lower Kalskag crew and 309MH, a pump site was established and a hose lay was run on the west flank. Hose lay will be completed and the sawline will continue in the next operational period. There was minimal fire activity due to recent weather but as drying trend continues more smokes are visible.

Savage's Type II Team took control of the fire today. Crews and equipment continued line construction and hose lay installation in Divisions T,B and C, prepared Divisions T and P for burn operations and continued mop up on Divisions P (along the Parks Hwy) and A. Progress of equipment was hampered by the lack of a Thycol to shuttle fuel. Pilot cars continue to shuttle traffic through the fire area. The fire is now 40% contained.

The fire received a large amount of precipitation 6/29 AM due to a localized weather event. Because of the decrease in short term fire potential a decision was made this morning to separate the Yukon and Alaskan incident organizations and scale back to a monitoring response. Alaskan personnel received approval to burn slash piles at King City and began securing point protection equipment in preparation for a 6/30 demobilization. Remaining Yukon resources in Beaver Creek worked toward completion of the community protection plan.

35 acre slop over on the south side (Lime Village side) of the Stony River was called contained today after it was gridded 300' in. The most threatened structures in Lime Village and along the Stony River were prepped today. Fire was most active on the SE side, backing towards the east. Good visibility allowed an accurate map update.

**HK6V** Lat: **62:32:09.6** Status: **U/U** Acres: **160,355.0** Option: **LIMITED**  
**304140** Lon: **156:46:40.8** Start Date: 5/31/13 Area: **SWS**  
**PNHK6V** Legal: 28N 41W 13 S Out Date:  
 #140 Owner: STA Admin: L&W-Lands and Waters  
 Name: **Moore Creek** Cause: Lightning

Moderate fire behavior due to higher Rh's and lower temperatures with 15% of the perimeter active. Detection reports the NW flank was most active but with slow rate of spread. The SE flank grew only 10 acres, backing towards a creek. Will continue to monitor. The Yukon Crew was demobed in to McGrath 6/29.

Several concerned motorists reported seeing a large, fast moving fire between Tazlina Glacier and the Glenn Highway. Two of the reports insisted that flames were visible. After flying the area thoroughly the incident was determined to be dust from the area's many river bluffs pushed by very high, area-wide winds.

The fire was reported by Palmer 911 as a downed powerline which caused a grass fire. Lakes FD and one forestry engine responded. Upon arrival the powerline was still energized and all personnel waited for MEA to arrive to de-energize the line before proceeding. The fire was 0.1 acres, smoldering in grass and leaf litter, 200' long by 1' wide. Personnel cold trailed the fire and placed it in monitor status due to the the fire burning deep into the fuels.

The fire jumped control lines to the North and West with extreme fire behavior in continuous black spruce. Multiple tankers and scoopers dropped on this fire until they timed out under the supervision of ASM platforms B-1 and A-4. Four dozers, seven type 6 engines, and 8 smokejumpers arrived in the afternoon. Helicopter 920 supported this fire for mapping and reconnaissance. A type II team has been ordered. The type III team currently in place plans to continue site preparation for military structures and values and will look at community protection plans.

Name: **Currant Creek** Cause: Lightning

Routine monitoring on 6/29 observed one small column. A Lake Clark Ranger reported increased winds blowing smoke across Lake Clark which prompted another flight 6/30. Detection reported 50 acres active (Rank 2) on the NW perimeter pushing NW towards Lake Clark. Fire appears unlikely to cross (S) of Currant Creek. Fire is starting to burn into a wetter hardwood fuel type. Except for smoke, no immediate threat to the residents or property appears likely. Will continue to monitor.

Recent precipitation assisted today`s efforts and the majority of the line is looking good. Firefighters will use direct attack on the east flank 7/2 and concentrate on known areas of heat near the perimeter. Main concerns are heat along the east flank, and the NW side, especially if a drying trend persists. Once the fire is demobed, it will need to be monitored as recent precipitation could easily conceal hot areas which could re-emerge later on. Midnight Sun IHC was demobed today.

Initiated the backhaul of supplies and equipment from Lime Village today. Winema IHC was also demobed today. Plan for 7/2 is to demob the Shageluk Crew and release 2 helicopters back to the Area, as well as continuing to backhaul equipment and supplies from Lime Village. Plan for 7/3 is to demob the rest of the overhead - leaving pumps & hose in place for structure protection along the Lime Village contingency line and around H-90, the group of cabins and outbuildings approx. 10 miles upstream (SE) of Lime Village.

The fire spread actively along the west and northwest edges with moderate rates of spread. Creeping, smoldering and single tree torching were observed on the rest of the fire. Hand crews supported by helicopter bucket work nearly completed line along the south flank and continue mopping up along the fire edge. Lassen IHC moved from the south perimeter to assist Elk Mountain IHC with line construction on the northwest flank. A spike camp was developed.  
(Crew roster seen on 401 Moon Lake incident.)

There was active surface fire across the northern portion of the fire with moderate rates of spread and group torching. Creeping, smoldering, and isolated torching was observed on the remainder of the fire. Helicopter bucket work supported hand crews along the north and northwest flanks. Hand crews completed line along the south flank and began mopping up. Spike camps are in place and helispots and medevac sites have been identified.

(Crew list seen on 401 Moon Lake incident.)

Shifting winds resulted in active backing and forward spread along the west flank near the Tanana River. CL-215s and helicopters with buckets worked this portion of the fire to prevent spotting across the Tanana. Overhead and Pioneer Peak reconned along the river to identify areas requiring direct attack.

(Crews seen below are being utilized on fires throughout the Moon Lake fire group.)

|               | Name: <b>Lime Hills</b> |                    | Cause: Lightning              |                        |

Backhaul of supplies and equipment was completed and personnel staged in Lime Village were demobed to McGrath. The fire is now unstaffed and is in monitor status. Structure protection equipment was left in place at one home site as well as the hose lay behind Lime Village in case of further threat should drying conditions prevail. The fire will be monitored for behavior and growth, and sites will be protected should the need arise.

A homeowner reported a fire of unknown origin in her back yard escaping into the woods. The Rural Deltana VFD, prevention, and two forestry engines responded. The fire was discovered at .1 of an acre. One forestry engine stayed on scene to contain and control the fire. Other resources were released. The prevention officer determined that charcoal dumped near hay bails was the source of ignition. The fire remains in monitor status.

Crews made progress yesterday and last night holding the southwest section of the fire along a section of the Quarry Road. The fire spotted across the road but fire managers used a bull dozer and stopped the spot fire from spreading. California National Interagency Incident Management Team 1 assumed command of the fire today at 6 am. The Incident Command Post has been moved to the North Pole Elementary School in North Pole, AK. Fire Managers are planning to keep the fire north of the Salcha River; south of the Chena River; East of Transmitter Road, north to Chena River and south along the Tran-Alaska pipeline to the Salcha River and west of the south fork of the Chena River, south along east boundary of the training area and south to the Salcha River.

 Name: **Bear Creek** Cause: Human

Relief pilot called in a smoke near the area of the old Bear Creek fire. Helitack, A/A, Air Tankers and engines responded. A 0.1 acre fire on military land near Clear AFB on the west side of the Nenana river was observed burning in hardwoods with a low rate of spread. Fairbanks 2, part of the helitack crew and an engine will remain overnight. Fire was declared contained and controlled at end of shift today.

The increase of temperature, along with decreasing humidity, tested completed containment lines. Increased fire intensity limited planned direct line construction. Intensified fire behavior restricted suppression efforts to indirect line construction and aerial retardant application. Smoke drift continues to impact Eielson AFB and Fairbanks International Airport. Difficulty of terrain necessitates the utilization of Critically Needed Type 1 Hand Crews for direct line construction as well as Dozers for indirect line construction.

The fire was active today with moderate rates of spread, crowning, spotting, and group tree torching on the north flank's steeper slopes and heavier fuels. IHCs and White Mountain continued to build sawline along the northwest flank. CL-215s and Blackhawks supported line construction. Crews continued to mop up along saw and dozerline on the southern flank.

Daily Report From: 07/06

**-2,635.0 Acre Change Since 07/05**

The southwest and west flanks of the fire backed actively today toward the Tanana River. Crews continued to mop up the southeast corner of the fire and protect structures on the east side of the river. Progress was made on prepping structures and installing sprinklers in Mansfield Village. Smokejumpers were deployed on the northeast perimeter near Mansfield to secure the fire's edge and construct a helispot. CL-215s and helicopters worked the fire again today. The decrease in estimated acreage is due to more accurate mapping.

 Name: **Moon Lake** Cause: Lightning

The southwest corner of the fire burned actively towards the Tanana river near Cathedral Bluffs. This fire activity created increased public interest along the Alaska Highway. Crews continued prepping structures and installing sprinklers at Mansfield Lake Village. Sawline was completed in preparation of a burnout to contain the northwest corner of the fire. Smokejumpers completed a helispot on the northeast perimeter.

As inclement weather moved into the area, some lightning strikes were observed in and around the fire. Aviation resources had to withdraw early from the fire as rain and clouds became a hazard. The fire remained active throughout the night and moderated in the late morning. Significant progress was made in direct hand and dozer line construction as weather moderated fire behavior. It is anticipated that a large portion on the southwest area of the fire will be considered contained tomorrow evening after mop up and line strengthening is completed. The Evacuation Order was rescinded for those residents evacuated from the communities of Two Rivers and Pleasant Valley. The Evacuation Watch was reestablished for those communities.

Rain over the fire area moderated fire behavior and also restricted access along roads and dozer lines. Crews secured the west and northwest flanks. Fire is approximately 30% contained and continues to be managed by the Alaska IMT.  
 (Crews working on this fire are shown in list on 401 Moon Lake.)

 Name: **Moon Lake** Cause: Lightning

Fire received rain which moderated fire behavior. Areas of heavy blowdown continue to make containment efforts difficult. Crews continue prepping structures at Mansfield Lake Village. Sawline was plumbed to prepare for burnout operation to contain the NW corner. Crews assessed securing direct line near Cathedral Bluff and along the Tanana River. Smokejumpers continue to secure line along the northeast perimeter.

CES responded to structure fire and requested DOF assistance for spread to the wildlands. One DOF engine responded. On arrival personnel found smokes visible behind the structure. The area was gridded and the smokes were extinguished. The fire is contained, controlled and is placed in monitor status.

Significant progress was made in direct hand and dozer line construction as weather continues to moderate fire behavior. Construction and preparation of contingency line continued. The residents evacuated from Twin Rivers and Pleasant Valley continued to repopulate their communities after the Evacuation Order was lifted yesterday. The Evacuation Watch remains established for those communities.

The fire received precipitation overnight. Crews made good progress securing line north of H-11. Personnel continue with mop-up along saw and dozer lines and completing equipment backhaul. Resources are being relocated to fire #401 as needed. Fire remains 30% contained and continues to be managed by the Alaska IMT.  
 (Crews working on this fire are shared resources with incident 401.)

The fire received additional precipitation overnight and in the am. Progress was made on the Mansfield Village structure protection plan. Lassen IHC relocated from fire #414 to assist SMJ with direct line SW of H-20 towards 2010 Eagle Trail Fire. Pioneer Peak IHC finished structure prep. T21A crews secured unburned edges along the west and southwest flanks. Crews continued mop-up of SE corner near Tanana River. All divisions continue to secure water handling equipment and backhaul excess supplies. Acreage change due to more accurate mapping.

GVEA removed a tree from a clients powerline. An hour later the client called back to report a small ground fire under the powerline. GVEA called Forestry to ask that we check it out. One engine responded to find a small fire skunking around in the duff. Fire was suppressed and placed in monitor status.

 Name: **Tetlin Jct Ridge** Cause: Lightning

Precipitation over the fire area has moderated fire behavior enough to allow hotspotting to secure an area of incomplete burn between Tetlin lands and the 2004 Porcupine fire. Excess equipment is being backhauled and spike camps broken down. Resources are being demobilized. Palm IR completed along containment line. Fire remains 30% contained and continues to be managed by the Alaska IMT. IMT working on transition to Type 3 organization by early next week.

Fire received light precip overnight. Crews made good progress on direct line construction SW of H-20 towards the Eagle Trail fire area. Mansfield Village Protection Plan was completed. Fire was monitored by boat and unburned areas secured. Excess equipment continues to be backhauled. Emergency Service representatives from multiple Indiana Type 3 organizations are shadowing the Alaska IMT. IMT working on transition to Type 3 organization by early next week.

 Legal: 02N 27W 11 S Out Date:  
 #437 Owner: NPS Admin: LCP-Lake Clark  
 Name: **Currant Creek** Cause: Lightning

Fire activity is currently limited to an area of two to three acres on the upslope edge in the middle of the fire. This burning area is creeping upslope into a spruce hardwood mix and consists of a ground fire. The burn is putting up a moderate column of smoke which is drifting over the northern end of Lake Clark. There is still some potential for spots across Currant Creek as the active fire backs downslope into a green pocket of spruce above the creek. The rest of the fire appears cold and once the interior fuel pockets are consumed there should be a low threat of spread south across Currant Creek.

At 14:40 zone detection aircraft N114MN discovered the fire located approximately 14 miles southeast of the village of Ruby. The fire was approximately 2 acres in size at that time, creeping and smoldering in open black spruce and tundra located in a limited suppression management area and was placed in monitor status. The fire was flown again at 21:08 and has grown to approximately 300 acres. The fire perimeter is 60 percent active creeping and backing in black spruce and tundra, rate of spread is light with 2 to 6 ft flame lengths and was spreading to the southeast.

Fire activity increased with warmer temperatures. Isolated flare-ups, single and small group torching were observed. Perimeter growth was minimal. Progress was made completing direct hand and dozer line. Resources engaged in mop-up and securing established containment lines. The Evacuation Watch remains established for the communities of Twin Rivers and Pleasant Valley.

Fire activity increased with warmer temperatures. Isolated flare-ups, single and small group torching were observed. Perimeter growth was minimal. Progress was made completing direct hand and dozer line. Resources engaged in mop-up and securing established containment lines. The Evacuation Watch remains established for the communities of Twin Rivers and Pleasant Valley.

Name: **Currant Creek** Cause: Lightning

Helicopter 212HL delivered supplies, and completed a recon of the fire. The smokejumpers reported that the fire continued backing into the winds out of the southeast. The winds are still favorable for keeping the fire on the north side of Currant Creek. The fire received no precipitation today, and the smokejumpers will continue to monitor and secure the fire while being assisted by the Park Service.

Increase in fire behavior with hot and dry weather, including surface spread on the north and east flanks and active crowning in pockets of black spruce. Crews performed indirect firing operation on NW corner of fire due to favorable burning conditions. Resources were relocated from other divisions of fire #414 to assist. Direct securing of the east flank continued towards the Eagle Trail fire scar. Well developed columns drew public interest along the Alaska Highway.

 Name: **Tetlin Jct Ridge** Cause: Lightning

Fire is burning in a steep drainage littered with areas of heavy blowdown that require extra saw work. White Mountain T2IA is continuing to construct indirect line on the northern flank to contain this portion of fire and prevent spread onto Tetlin lands. Other divisions are being monitored and hotspotted as needed.

Daily Report From: 07/16

 Name: **Moon Lake** Cause: Lightning

Northern most area of the fire was active including some group tree torching and active crowning in pockets of black spruce. Pioneer Peak worked on securing line from yesterday's indirect firing operation. Numerous snags and blowdown in the area are slowing progress. T2IA crews continued with direct line on the east flank working south towards the Eagle Trail fire scar. Another day of public interest along the Alaska Highway was experienced due to the well developed column.

Smoldering in mixed hardwoods observed in NW corner of fire near area of concern. White Mountain continued with indirect line construction and prep. They also mopped up 50 ft in along the west flank and hotspotted 100 ft in areas of heavy blowdown. Steep terrain and blowdown continues to slow progress.

Areas of heavy blowdown continue to hinder containment efforts. Radio coverage is not adequate in critical fire areas; setting up repeater next operational period. IHC continued to snag and secure line in heavy blowdown. Rappellers were inserted in the northeast corner to recon crew workload for containment and construct helispots. T2IA crews secured line on the east flank. 4 personnel required non-emergency medical transport by helicopter for illness.

DOF Engine and Prevention responded with Nikiski FD to a report of a debris burn that escaped into the wildlands. On arrival the IC reported .5 acres burning in slash and duff, winds SE at 3-5, 10% active perimeter creeping and smoldering on a 30% slope with a NE aspect. An additional engine was requested for manpower. The fire was burning deep into the duff layer and required extensive mop-up. The fire was called contained and controlled and was placed in monitor status.
