UNDERGROUND STORAGE TANKS
ALASKA DEPARTMENT OF ENVIRONMENTAL CONSERVATION

TAKEN OUT OF SERVICE OR TEMPORARY CLOSURE

Notification is required for a UST system installed or in service after January 1, 1974, and taken out of service or temporarily closed after that date (18 AAC 78.020). *"Taken out of service"* means a tank is empty, vented and locked. *"Temporary Closure"* means a tank contains product but is not being used. Both are subject to a UST Operations Inspection every three years by a certified UST Inspector.

A. Tank is Taken Out of Service
- ❑ Tank is empty, containing less than 1" of product.
- ❑ Tank is vented, and fill pipe and dispenser are locked.
- ❑ An Empty Tank Affidavit is attached.
- ❑ Tank and piping meets corrosion protection standards.
- ❑ If taken out of service for more than 3 months, tank vent lines are open, and all other lines, pumps, manways, and ancillary equipment are secured.
- ❑ Proof of Financial Responsibility provided to ADEC.

B. Tank is Temporarily Closed
- ❑ Tank and piping meets release detection standards.
- ❑ Tank and piping meets corrosion protection standards.
- ❑ If temporarily closed for more than 3 months, tank vent lines open, and all other lines, pumps, manways, and ancillary equipment are secured.
- ❑ Proof of Financial Responsibility provided to ADEC.

I certify that the following is true and correct. 1. I have filled out, signed, notarized and submitted an Empty Tank Affidavit with ADEC for all tanks that are temporarily out of service (ie: empty). 2. There is no known or suspected release of petroleum from the tank or tanks listed in this form, or, if there is a known or suspected release, ADEC has been notified. And 3. I understand that an operations inspection is required under 18 AAC 78.017 for tanks listed on this form unless the tanks are permanently closed by the date of inspection.
