RE: Administrative Extension of Alaska Pollutant Discharge Elimination System (APDES) General Permit AKG523000, Icicle Seafoods F/V Viking Queen Offshore Processing Vessel, Permit Authorization AKG523063

Dear Mr. Woodruff:

The Alaska Department of Environmental Conservation (DEC), Wastewater Discharge Authorization Program received your complete AKG523000 Notice of Intent (NOI) re-application materials in a timely manner, as required by AKG523000 Permit Part 4.3.5. In accordance with DEC regulation 18 AAC 83.155(c), an APDES permit remains fully effective and enforceable if a timely and complete application is received, and through no fault of the permittee DEC does not reissue a new APDES permit prior to the expiration date of the existing permit. Therefore, the existing permit authorization and applicable submitted NOI will remain effective and enforceable until a new permit is issued to your facility.

Please note that DEC may request additional information during the development of the draft AKG523000 permit to clarify, modify, or supplement previously submitted materials. If you have any questions, please contact Clynda Case at (907) 376-1865 or via email at clynda.case@alaska.gov.

Sincerely,
