Re: Copper River Seafoods Togiak Plant, Gurry Transport Vessel M/V Miss Maile, APDES Permit No. AKG523059, Notice of Coverage and Authorization to Discharge

Dear Mr. Gilbert:

The Alaska Department of Environmental Conservation has completed its review of your updated June 24, 2016 Name Change-Permit Transfer request and updated January 28, 2016 Notice of Intent (NOI) to be covered by APDES Permit AKG523000, the general permit of Alaskan offshore seafood processing vessels. The DEC is issuing authorization AKG23059.

Effective June 24, 2016, the transfer of the permit from the F/V ITSWOOT to the gurry vessel M/V Miss Maile is granted.

The AKG523000 general permit is scheduled to expire June 30, 2016, and DEC intends to administratively extend the general permit by that date. In accordance with AKG523000, Section 4.3.5 (Duty to Reapply), the January 28, 2016 NOI application package fulfills the obligation to apply/reapply at least 90 days (April 1, 2016) prior to the expiration date of the permit. The complete and timely application package qualifies for administrative extension of the APDES authorization until a new permit is issued. You should expect to receive further written communication from DEC regarding your AKG523000 permit status closer to the permit expiration date.

Copper River Seafoods is authorized to discharge seafood waste as allowed by AKG523000 and according to the Notice of Intent submitted January 28, 2016 for the Copper River Seafoods Togiak Plant Gurry Transport Vessel M/V Miss Maile.

Copper River Seafoods, Gurry Transport Vessel M/V Miss Maile (acting on Copper River Seafood's behalf) is authorized to discharge seafood waste at the following sites (as requested in the January 28, 2016 Notice of Intent):

Site Name	Shape of Area of Discharge	Seafood processing waste discharge location name (Receiving Water Name or Operational Area Designation)	Latitude	Longitude
Togiak Bay	1 nm diameter circle (coordinates are center point)	Togiak Bay	59.022992	-160.349603

If you have questions about the issuance of this authorization, please contact Jackie Ebert at jackie.ebert@alaska.gov or 907-465-5336.

If you have questions regarding compliance with any permit or authorization requirement, please contact Kristi Asplund at kristi.asplund@alaska.gov or 907-465-5308 for southeast locations or Darren Stewart at darren.stewart@alaska.gov or 907-269-7550 for all other locations.

Sincerely,

Earl L. Crapps
Section Manager
Domestic & Industrial Utilities
Wastewater Discharge Authorization Program

Authorization to Discharge

AUTHORIZATION TO DISCHARGE UNDER THE ALASKA POLLUTANT DISCHARGE ELIMINATION SYSTEM (APDES) FOR ALASKA OFFSHORE SEAFOOD PROCESSORS.

FACILITY ASSIGNED AUTHORIZATION NUMBER: AKG523059

DEC File Number: 2658.54.002

GENERAL PERMIT NUMBER: **AKG523000**
See this General Permit for all permit requirements.

The following facility is authorized to discharge in accordance with the terms of the APDES General Permit AKG523000 and any site specific requirements listed in this authorization.

The authorization effective date is **June 24, 2016.**

The authorization to discharge shall expire at midnight, **June 30, 2016**.

This authorization demonstrates that the applicant has fulfilled the obligation to reapply for permit coverage at least 90 days prior to the expiration date of the permit and that their application has been found timely and complete.

SECTION 1 – RESPONSIBLE PARTY INFORMATION	
Issued to:	Copper River Seafoods

SECTION 2 – FACILITY INFORMATION			
Facility Name:	Copper River Seafoods Togiak Plant Gurry Transport Vessel – M/V Miss Maile		
Facility Location:	As designated on the Notice of Intent (NOI) dated January 28, 2016		
APDES Permit Category:	Seafood Processing		
Category(ies) of Processor:	Mobile transit vessel discharging seafood processing waste while in transit in water between 1.0 and 3.0 nautical miles from shore at MLLW or baseline		
Latitude:	As designated on the NOI	Longitude:	As designated on the NOI

Permit ID: 13431.5
Facility ID: 7489.2

SECTION 3 – REGULATED DISCHARGE INFORMATION – EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS	
Effluent Limitations	
Effluent Compliance Point:	At the point of discharge in the receiving water.
Amount of Seafood Waste Discharge Limitation:	An operator shall not discharge a cumulative amount (by weight) of seafood processing waste on a daily or annual basis which exceeds the amount for each single location and area of operation as projected on the January 28, 2016 Notice of Intent. Discharge maximums are listed for the area of operation. These maximum discharges are cumulative total (5,280,000 lbs) for all vessels proposed to discharge (F/V Tonsina and/or M/V Miss Maile) to the single area of operation.
Monitoring Requirements	
Effluent Monitoring begins January 2013 and continues until permit coverage expires.	
Effluent Monitoring Point:	Sample port prior to the discharge entering the receiving water.
See Tables 2, 3, 4, and 5 of permit AKG523000 for monitoring requirements.	

SECTION 4 – RECEIVING AREA INFORMATION-RECEIVING WATER			
Receiving Area Name:	As designated on the NOI		
Latitude:	As designated on the NOI	Longitude:	As designated on the NOI
Monitoring Requirements: See Permit Part 5.1.4 for Receiving Water Monitoring Requirements			
Monitoring begins January 2013 and continues till permit coverage expires.			
Monitoring Point:	Samples shall be collected at two depths per sampling location and at two sampling locations per event. One sampling location shall be at the approximate boundary of an authorized mixing zone, down current or likely influenced by an effluent discharge and one location shall be at a representative location of the receiving water not influenced by an effluent discharge		
See Tables 6, 7 and 8 of permit AKG523000 for monitoring requirements.			

Mixing Zone Authorization	
Mixing Zone Compliance Point:	All Alaska Water Quality Standards shall be met at the boundary of each authorized mixing zone at each single discharge location within an authorized area of operation.
Mixing Zone Authorization:	The discharge is assigned a mixing zone at each discharge location within an authorized area of operation listed in the NOI.
Mixing Zone Description:	The mixing zone size for each discharge location within an authorized area of operation listed in the NOI is a circle with a 100 foot radius centered at the outfall pipe or discharge pipe terminus extending vertically up to the surface and down to the seafloor.
Water quality criteria that may be exceeded within each mixing zone:	Dissolved gas, oil and grease, pH, temperature, color, turbidity, residues, fecal coliform bacteria, total residual chlorine and enterococci bacteria.

SECTION 5 – SITE SPECIFIC REQUIREMENTS
(Any additional requirements to those already listed in the general permit)

If you have questions regarding compliance with any permit or authorization requirement, please contact Kristi Asplund at kristi.asplund@alaska.gov or 907-465-5308 for southeast locations or Darren Stewart at darren.stewart@alaska.gov or 907-269-7550 for all other locations.

The two dedicated phone numbers are to be used for verbal notification within 24 hours of an incident of non-compliance. The required written follow-up notification can be provided via fax, email, or U.S. Postal Service.
