Re: USCG Kodiak Support T2 Building: ADEC Spill # 1991250024351:
UST Facility ID # 998
No Further Remedial Action Required

Dear LCDR Raney:

The Department has reviewed the *COMSTA Kodiak Building T2 Groundwater and Biocell Sampling* report dated 2 February 04. Based on our review of this report and the site file, a single soil sample in the biocell area exceeds ADEC Method Two soil cleanup standards. However, the groundwater samples are all below Table C cleanup standards, indicating that the remaining soil contamination is not migrating and affecting the groundwater or the nearby Buskin River. The Department feels that natural attenuation will address the remaining soil contamination. Therefore, the Department has determined that no further remedial action is required at this site.

The groundwater monitoring wells and associated bioventing system may be abandon following ADEC procedures. Please submit a monitor well abandonment report upon completion.

The soil biocell site will achieve complete site closure when the USCG demonstrates, through soil sampling, that the soil contaminant levels are all below ADEC Method Two soil cleanup levels in 18 AAC 75, Tables B1 and B2. A soil sampling plan must be submitted and approved prior to conducting the site closure soil sampling.

The Department has determined that the USCG ISC Kodiak T2 site is approved for no further remedial action. However, please be informed that if contamination is identified in the future that may pose a risk to human health or the environment , additional investigative and/or corrective action may be required.

Any person who disagrees with this decision may request an adjudicatory hearing in accordance with 18 AAC 15.195 - 18 AAC 15.340 or an informal review by the Division Director in accordance with 18 AAC 15.185. Informal review requests must be delivered to the Division

Director, 410 Willoughby Avenue, Suite 303, Juneau, Alaska 99801, within 15 days after receiving the department's decision reviewable under this section. Adjudicatory hearing requests must be delivered to the Commissioner of the Department of Environmental Conservation, 410 Willoughby Avenue, Suite 303, Juneau, Alaska 99801, within 30 days after the date of issuance of this letter, or within 30 days after the department issues a final decision under 18 AAC 15.185. If a hearing is not requested within 30 days, the right to appeal is waived.

If you have any questions or need further assistance, pleas contact me at (907) 262-5210, ext. 233.

Sincerely,

Don Seagren
