Closure/No Further Action
SPILL #: 90-2-1-01-235-01; FILE #: L55.74

Dear Mr. Belka:

The department has received and reviewed the America North/EMCON Inc. quarterly groundwater monitoring report on this site, dated July 10, 1992. Based on this document and the previous site report(s), no further action is requested by the department.

However, in the future, if contamination exceeding regulatory soil and groundwater cleanup standards is identified on the site, additional work may be necessary.

The water quality group has advised me that there is a Class A Water well at Romig Park, northwest of the monitoring well mentioned above.

Please contact me if you have any questions at (907) 349-7755.

Sincerely,

Scott Bailey
