18 AAC 50 is amended by adding a new section to read:

18 AAC 50.270. Electronic Submission Requirements. (a) If an electronic form is available within the Permittee Portal for records or information required by the department, a person shall submit that information electronically using the designated form. The department will post, on its air quality Internet website, a list of records or information required to be submitted electronically through the Permittee Portal and an effective date for the requirements to use the designated forms under (c) or (g) of this section.

(b) Upon department written approval, a person may submit required records or information using methods other than the method required in (a) of this section. If the person does not have reasonable access to equipment necessary to access the department's air quality Permittee Portal, the department may approve submission by alternative methods, including by letter, form, or electronic mail. Approval under this subsection is temporary and may not remain effective for more than one calendar year without the department's written extension of the approval.

(c) For records and information that must be submitted using electronic web forms that are available prior to *{adoption date of the regulations}*, unless already required to submit records or information electronically, the requirement to use the forms takes effect no later than *{one year after the adoption date of the regulations}*.

(d) For electronic web forms developed after *{adoption date of the regulations}* the department shall post a notice, on the department's Internet website, of the development of a new electronic web form and notify by email those permittees that may be affected.

(e) Upon completion of a new electronic web form, the department will provide an electronic test environment and a timeframe where affected entities may review and comment on the draft web form.

(f) After the review and expiration of the posted timeframe under (e) of this subsection, the department will make the new electronic web form and the effective date of required electronic submission available on the Permittee Portal. The effective date for new electronic web forms will be at least one year after the completion of (e) of this section. The department will notify all affected parties, by email, of the new requirement and effective date.

(g) After new electronic web forms have been added to the Permittee Portal under (f) of this section and starting no later than their effective date, their use will be required for electronic submission of reports or information in accordance with established reporting deadlines.

(h) In this section, “Permittee Portal” is an online service provided by the department that allows registered organizations to conduct permit-related activities, such as submission of air quality compliance forms or open burn applications. (Eff. __/__/____, Register __)

18 AAC 50 is amended by adding a new section to read:

18 AAC 50.275. Consistency of Reporting Methodologies. (a) Regardless of permit classification, as of *{effective date of the regulations}*, all stationary sources operating in the state shall report actual emissions as required under 18 AAC 50 to the department, either upon

request or to meet individual permit requirements, in order for the state to meet the federal reporting requirements under 40 C.F.R. Part 51, Subpart A.

(b) For the purposes of reporting actual and assessable emissions under any requirement of 18 AAC 50, stationary sources shall use consistent pollutant-specific emissions factors and calculation methods for all reporting requirements. (Eff. __/__/____, Register __)
