DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2016-1029]

Drawbridge Operation Regulation; Northeast Cape Fear River, Wilmington, NC

AGENCY: Coast Guard, DHS.
ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the CSX Hilton Railroad Bridge across the Northeast Cape Fear River, mile 1.5, at

Wilmington, NC. This deviation is necessary to manually operate the bridge and perform emergency bridge repairs. This deviation allows the bridge to remain in the closed-to-navigation position.

DATES: This deviation is effective without actual notice from November 25, 2016 through 6 p.m. on December 9, 2016. For the purposes of enforcement, actual notice will be used from November 18, 2016 at 3:45 p.m., until November 25, 2016.

ADDRESSES: The docket for this deviation, [USCG-2016-1029] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH". Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Hal R. Pitts, Bridge Administration Branch Fifth District, Coast Guard, telephone 757-398-6222, email Hal.R.Pitts@uscg.mil.

SUPPLEMENTARY INFORMATION: The CSX Corporation, owner and operator of the CSX Hilton Railroad Bridge across the Northeast Cape Fear River, mile 1.5, in Wilmington, NC, has requested a temporary deviation from the current operating regulations due to an electrical casualty to the submarine cable and electrical components caused by Hurricane Matthew. The bridge is limited to manual operation, which requires personnel to manually operate components of the bridge in locations where additional safety measures are required, limiting the bridge to daylight operations. The bridge is a bascule draw bridge and has a vertical clearance in the closed position of 4 feet above mean high water.

The current operating schedule is set out in 33 CFR 117.829(b). Under this temporary deviation, the bridge will remain in the closed-to-navigation position and open on signal during daylight hours, if at least 3 hours notice is given.

The Northeast Cape Fear River is used by a variety of vessels including small commercial fishing vessels, recreational vessels and tugs and barges. The Coast Guard has carefully coordinated the restrictions with waterway users.

Vessels able to safely pass through the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can

arrange their transit to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: November 18, 2016.

Hal R. Pitts,
Bridge Program Manager, Fifth Coast Guard District.

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R10-OAR-2016-0591; FRL-9955-48-Region 10]

Air Plan Approval: AK; Permitting Fees Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking direct final action to approve state implementation plan (SIP) revisions submitted by the State of Alaska (state) Department of Environmental Conservation on February 1, 2016. The revisions implement changes to permit administration and compliance fees based on the state's fee study results. Changes include: The addition of definitions, restructuring of fee categories, rearranging and renumbering of certain fee rules, and updating cross references to align with the restructured fee rules.

DATES: This rule is effective on January 24, 2017, without further notice, unless the EPA receives adverse comment by December 27, 2016. If the EPA receives adverse comment, we will publish a timely withdrawal in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R10-OAR-2016-0591 at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other

information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

- III. Final Action
- IV. Incorporation by Reference
- V. Statutory and Executive Order Reviews

I. Background

Section 110 of the Clean Air Act (CAA) governs the process by which a state submits air quality requirements to the EPA for approval into the State Implementation Plan (SIP). The SIP is a state’s plan to implement, maintain and enforce the National Ambient Air Quality Standards (NAAQS) set by the EPA. CAA section 110(a)(2)(L) requires SIPs to contain provisions that require payment of certain fees to the permitting authority for costs associated with permitting as well as implementing and enforcing the terms and conditions of permits issued. Alaska’s air quality regulations, including provisions addressing the fee requirements in CAA section 110(a)(2)(L), are set forth in Alaska Administrative Code (AAC) Title 18 Environmental Conservation, Chapter 50 Air Quality Control (18 AAC 50) and many of these provisions are incorporated into Alaska’s SIP. Alaska routinely submits revisions to the EPA to ensure the SIP reflects current administrative code and statutes in accordance with the CAA. On February 1, 2016, Alaska Department of Environmental Conservation (ADEC) submitted such an update to incorporate recently revised portions of 18 AAC 50 dealing with air quality permit administration fees, emission fees, and negotiated service agreements. These

regulation changes are based on results of the state’s 2014 Fee Study Report.

II. Analysis of Rule Updates

Most recently, on September 19, 2014, we approved into the Alaska SIP, portions of 18 AAC 50.400 that relate to the CAA requirements of section 110(a)(2)(L) (79 FR 56268). Specifically, we approved paragraphs (e), (g), (h), (i), and portions of (j)—requiring new source review permit fees and SIP-approved open burning program fees. In the revisions submitted on February 1, 2016, Alaska repealed 18 AAC 50.400 and then updated, reorganized and readopted the provision. The state requests approval of 18 AAC 50.400(d), (e), (f), (g), and (h), in general the provisions that correspond to the fee provisions previously approved in the Alaska SIP. We have reviewed the changes and approve the portions of the readopted version of 18 AAC 50.400 that contain the requirements for sources to pay new source review permit fees and SIP-approved open burning program fees. Alaska also requested approval of revisions to 18 AAC 50.230(c)(1)(I) and 18 AAC 50.260(p). We are approving these revisions because they consist solely of correcting cross references to 18 AAC 50.400 as necessary due to the reorganization and readopting of 18 AAC 50.400 mentioned above.

III. Final Action

We are approving, and incorporating by reference, into the Alaska SIP the following revised provisions, state effective September 26, 2015: 18 AAC 50.400 (except (a), (b), (c), and (i)); 18 AAC 50.230(c)(1)(I), and 18 AAC 50.260(p).

IV. Incorporation by Reference

In this rule, the EPA is approving regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, we are incorporating by reference the provisions described above in Section III. Final Action. The EPA has made, and will continue to make, these documents generally available electronically through <http://www.regulations.gov> and/or at the EPA Region 10 office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations.

42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement

Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 24, 2017. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it

extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules section of this **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that the EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: November 14, 2016.

Dennis J. McLerran,
Regional Administrator, Region 10.

For the reasons set forth in the preamble, 40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart C—Alaska

■ 2. In § 52.70, the table in paragraph (c) is amended by revising entries 18 AAC 50.230, 18 AAC 50.260, and 18 AAC 50.400 to read as follows:

§ 52.70 Identification of plan.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 665

RIN 0648-XE284

Pacific Island Pelagic Fisheries; 2016 U.S. Territorial Longline Bigeye Tuna Catch Limits for the Territory of Guam

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Announcement of a valid specified fishing agreement.

SUMMARY: NMFS announces a valid specified fishing agreement that allocates 1,000 mt of the 2016 bigeye tuna limit for the Territory of Guam to U.S. longline fishing vessels. The agreement supports the long-term sustainability of fishery resources of the U.S. Pacific Islands, and fisheries development in Guam.

DATES: November 21, 2016.

ADDRESSES: Copies of a 2015 environmental assessment (EA), a 2016 supplemental EA (2016 SEA), and a finding of no significant impact,

identified by NOAA-NMFS-2015-0140, are available from www.regulations.gov, or from Michael D. Tosatto, Regional Administrator, NMFS Pacific Islands Region (PIR), 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818.

Copies of the Fishery Ecosystem Plan for Pelagic Fisheries of the Western Pacific Region (Pelagic FEP) are available from the Western Pacific Fishery Management Council (Council), 1164 Bishop St., Suite 1400, Honolulu, HI 96813, tel. 808-522-8220, fax 808-522-8226, or www.wpcouncil.org.

FOR FURTHER INFORMATION CONTACT: Ariel Jacobs, NMFS PIRO Sustainable Fisheries, 808-725-5182.

SUPPLEMENTARY INFORMATION: In a final rule published on September 14, 2016,
