RE: AKG521065 NOI Update – Species, Quantities, Re-Addition of Oil Plant, PAZOD modification

To Whom it May Concern,

Please find enclosed updated Notice of Intent for Trident Seafoods Wrangell facility, AKG521065. Trident is submitting this updated Notice of Intent to add additional species, update quantities processed, re-add the oil plant operation, and update the PAZOD area.

As Trident consolidates operations in Alaska, the Wrangell facility is changing to allow it to process some species which had been processed at Trident Ketchikan or Trident Petersburg. Trident is also re-installing the oil plant equipment at Wrangell, and has updated Attachment A-1, the line drawing, and outfall narrative to include this activity. The PAZOD area is being updated to exclude the neighboring municipal dock which was inadvertently included in the initial PAZOD area.

Please contact the Trident Regulatory Affairs department at [envcompliance@tridentseafoods.com](mailto:envcompliance@tridentseafoods.com) with any questions or concerns.

Sincerely,

Shawn Stokes  
Regulatory Affairs Director  
Trident Seafoods Corporation
