Re: Work plan approval for long-term monitoring  
Westours Fairbanks Bus Maintenance Facility

Dear Ms. Clark:

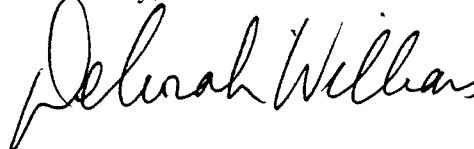

The Alaska Department of Environmental Conservation, Contaminated Sites Program (ADEC) reviewed the work plan that was submitted by HartCrowser on the long-term monitoring for the Westours Fairbanks Bus Maintenance Facility.

According to the plan ESL-Monitoring Well (MW) 3, ESL-MW8A, and ANI-MW3 will be sampled in 2007 for volatile organic compounds and every other year until the groundwater meeting ADEC Table C cleanup levels.

ADEC approves of this long-term monitoring plan.

If you have any questions or concerns, please contact me via telephone at 451-5174 or via e-mail at Deborah\_Williams@dec.state.ak.us.

Sincerely,

Deborah Williams  
Environmental Program Specialist
