Re: Eareckson Air Station Leaking Underground Storage Tank 3049-2 (ADEC Tank #27), 3049-3 (ADEC Tank # 28), 3049-6 (ADEC Tank # 29), and 3051-9 (ADEC Tank # 35)

Dear Mr. Barnack:

The Alaska Department of Environmental Conservation (ADEC) Federal Facilities Oversight group is concerned about a large number of Leaking Underground Storage Tanks (LUST) sites that are located at Eareckson Air Station. The Underground Storage Tanks listed above are all located within the boundaries of IRP Site ST044. Although impacted soil remains in place at depth, the LUST sites listed will be administratively closed in the ADEC Contaminated Sites Database and the associated contamination will be managed under the IRP Site ST044.

The State appreciates your continued coordination on this and other projects at Eareckson Air Station. If you have any questions regarding this letter, please contact me at (907) 269-3077 or [jonathan.schick@alaska.gov](mailto:jonathan.schick@alaska.gov).

Sincerely,

Jonathan Schick  
Environmental Program Specialist
