Re: Institutional Controls verification for Alyeska PS 01 Tank 111

The Contaminated Sites Program conducts periodic verification of closed sites where institutional controls (land use restrictions) are required under 18 AAC 75.375. We have identified Alyeska PS 01 Tank 111 as a site with institutional controls.

In order to prevent people from being exposed to any remaining contamination on the property, this letter is being sent as a reminder of the conditions placed on the property as part of the 2008 Record of Decision granted by the Alaska Department of Environmental Conservation (ADEC). At the time of closure, soil contamination was documented as remaining on the property. The contamination is from crude oil that was observed entering into a service vault located along the west side of Tank 111 in 1990.

The 2008 determination is subject to the following site-specific conditions and/or controls:

1. Any proposal to transport soil off site requires ADEC approval in accordance with 18 AAC 75.370 (b).

In addition to the condition above, you are required to notify the ADEC if there are any changes in land use or ownership. Failure to maintain these requirements may result in re-opening the site by the Contaminated Sites Program, in which case, further remediation could be mandatory.

May 14, 2014

In accordance with 18 AAC 75.380(d)(2), ADEC may require additional site assessment, monitoring, remediation, and/or necessary actions at this facility should new information become available that indicates contamination at this site may pose a threat to human health or the environment.

If you seek to have the institutional controls removed from this site, you can choose at any time to voluntarily conduct additional assessment, monitoring or further cleanup to demonstrate that contamination at the site now meets the applicable cleanup levels under 18 AAC 75.

This site information is a matter of public record and is available at ADEC's online database record at: [http://dec.alaska.gov/Applications/SPAR/CCReports/Site\\_Report.aspx?Hazard\\_ID=1173](http://dec.alaska.gov/Applications/SPAR/CCReports/Site_Report.aspx?Hazard_ID=1173)

If you have any questions regarding this site, please contact me at (907) 465-5229 or [evonne.reese@alaska.gov](mailto:evonne.reese@alaska.gov) and I will be glad to assist you.

Sincerely,

for Evonne Reese
