Re: Spill #96-27-99-349-01 YKHC 600 Building, and Spill #97-27-99-273-01 YKHC Back Ramp

Dear Dan:

I have received your November 1, 1999 letter and the lab results from the final sampling of the YKHC 600 building spill. The samples are all well below the respective cleanup levels for DRO/GRO, and we can finally close out this spill. I have requested final spill reports from Dusan Kovac of YKHC for both this spill and the ramp spill, as YKHC is the responsible party for both of these spills. When I receive them, I'll close our files on these spills.

Thank you for all of your help in getting these spills finally cleaned up. They have taken an inordinate amount of time for both of us, and I appreciate your efforts to get these situations resolved. Let's hope that YKHC puts more energy into spill prevention measures in the future.

Sincerely,

Bob Carlson  
Environmental Specialist III
