Re: Camai Air-Bethel: ADEC Spill # 1998250025301: UST Facility ID # 666
Site Closure Approved

Dear Mr. King:

I have just been assigned this project. It is for the removal of underground storage tanks at your facility in 1998. I apologize for the delay in getting a decision to you. Based on the information provided in the reports and subsequently provided by your consultant, the Department has determined that no further remedial actions are required. The Department considers this site closed.

However, should information become available in the future that show contamination exists that may pose a risk to human health or the environment, the Department will require additional assessment and/or corrective actions at that time.

If you have any questions or need further assistance, please contact me at (907) 262-5210, Ext. 233.

Sincerely,

Don Seagren
Environmental Specialist
