ADEC Work Plan Approval Decision

Dear Ms. Duarte:

One January 26, 2021, the Kenai Area Office of the Alaska Department of Environmental Conservation (ADEC), received Stantec's, **Corrective Action Work Plan for 2021** for the Northstore #52 "site" (Speedway Store 5325). Thank you for ensuring this work plan was provided for ADEC review and approval prior to implementation. On February 4, 2021, during our annual meeting, one correction was made to the work plan, which was to add EPA 8270D analysis to each groundwater sample location once per year, which will meet the required detection limit for Naphthalene.

This work plan is hereby approved. We look forward to receiving the reports and findings following the implementation of this work plan. If there are any questions regarding this work plan approval decision, or any other aspect of this project, feel free to contact me at (907) 262-3412, or via e-mail at peter.campbell@alaska.gov

Sincerely,
