Re: Swanson River Electric Shop  
2021 Groundwater Monitoring Program Report  
ADEC Report Comments

Mr. Hong:

The Kenai Area Office of the Alaska Department of Environmental Conservation, Contaminated Site Program (ADEC) has reviewed the 2021 Groundwater Monitoring Program Report for the Swanson River Electric Shop, dated November 2021. The report is approved.

We have reviewed this report and offer the following comments at this time:

In future reports, please present a table presenting historical product thickness in site monitoring wells.

Please present historical product recovery from monitoring wells.

We will use product accumulation as a gauge of natural attenuation and evaluation of long-term remediation in preparation for site closure.

If you have specific questions regarding these report comments, you can reach me at 907-262-3412 or via email at [peter.campbell@alaska.gov](mailto:peter.campbell@alaska.gov).

Sincerely,

*Peter Campbell*
