Re: Delta Western Tank Farm - Dillingham
Hazard ID No. 25770
2023 Groundwater Monitoring Report
ADEC Approval

Dear Ms. Bentz:

On February 20, 2024, the Alaska Department of Environmental Conservation (ADEC) received the 2023 Groundwater Monitoring Report Delta Western Terminal - Dillingham, dated February 15, 2024, for the Delta Western Tank Farm – Dillingham site. Farallon Consulting, L.L.C. prepared this report on behalf of Delta Western, LLC. Thank you for providing this report for our review. The report is approved.

Delta Western, in a Spring 2024 e-mail, proposes to discontinue sampling monitoring wells TW-2; MW-9; MW-15; MW-21; MW-22; and MW-25. These wells have concentrations that have been less than the ADEC cleanup levels or a minor fluctuation that slightly exceeding cleanup levels. The data from these wells also are not critical to evaluation of groundwater quality or decision-making at this time. These wells can be added back to the groundwater monitoring program at a later date. DEC supports this conclusion.

Please contact me at peter.campbell@alaska.gov or by phone at 262-3412 if you have any comments or questions regarding this letter, or any other aspect of this project.

Sincerely,

Peter Campbell
