

**SOC/OOC Monitoring Waiver Renewal Application  
2005-2007**

*Applicant's Statement for Renewal of the SOC/OOC Waiver Application, to be applied to the 2005-2007 Compliance Period:*

Public Water System: \_\_\_\_\_ PWSID: \_\_\_\_\_.

I am requesting that ADEC renew my 2002-2004 SOC/OOC waiver application for the 2005-2007 compliance period. I have reviewed a copy of the initial/original SOC/OOC waiver application, and hereby attest that:

- 1) This water system continues to use the same water source(s);
- 2) There have been no changes in the location of the well(s) or water source intake(s), and that the general characteristics of the water source(s) remain the same;
- 3) The amount of water used each year and/or the number of people using the water system remains the same. *(If more than 10% change in population or water usage, contact ADEC to further discuss the impact of these changes prior to submitting this renewal form);*
- 4) I understand that the Waiver Review Area (WRA) will be based on Zone A of the Source Water Assessment delineated protection area. If Zone A encompasses the entire watershed, staff will delineate a fixed radius WRA. The WRA will not be the same as the one in the original SOC/OOC Waiver Application;
- 5) I understand that susceptibility from SOC/OOC potential contaminant sources or activities will be determined by the Source Water Assessment contaminant source inventory. I also understand that if potential contaminant sources or activities are found within the WRA, I will be given an opportunity to verify their presence before the renewal application is denied;
- 6) I understand that if the renewal application is denied, the application fee will not be refunded and that subsequent SOC/OOC monitoring will be required.

***A renewal application fee of \$85.00 is required of all applicants. Please make the check payable to the State of Alaska. Send this form and the required \$85.00 fee payment to: The Drinking Water Protection Program, ADEC, 555 Cordova Street, Anchorage, AK 99501. ADEC will notify all applicants in writing if the renewal application has been approved or denied.***

***NOTE: If there have been changes in the review area that require additional review by ADEC staff, the PWS will be invoiced an additional amount of either \$220 if the changes do not include the use of a synthetic or other organic chemical, or \$605 if the changes include the use of a synthetic or other organic chemical.***
