The purpose of this form is to document that employees designated as Class C operators have completed training required by Alaska Administrative Code (AAC) 18 AAC 78.008(e), (h) and (k). Class C operators are responsible for the initial response to alarms or other indications of emergencies at a facility. Class C operators shall complete the following questions:

Is this Initial Class “C” training or annual refresher training?  
☐ Initial Training  
☐ Annual Refresher Training

1) Have you received training identifying the telephone number to call the fire department for this facility and is this number posted in a clearly visible location?

☐ Yes  ☐ No

2) Have you received training identifying the list of company people who should be notified in an emergency and is this list posted in a clearly visible location?

☐ Yes  ☐ No

3) Have you received training identifying the actions to take concerning the Emergency Shut off Switch?

☐ Yes  ☐ No

4) Have you received training identifying how to respond to various alarm messages that may appear on the display of the tank monitoring system?

☐ Yes  ☐ No

#4 NOTE: If you do not know how to read the display or what messages to expect if there is a problem with the storage system, look in the tank monitoring manual to find this information or call a qualified petroleum system contractor and have them explain this information to you.

5) Have you received training identifying how to locate and properly recognize the following items: dispenser, hose, nozzle, and breakaway coupling?

☐ Yes  ☐ No

#5 NOTE: The emergency stop switch shuts off power to all the dispensers and fuel pumps. The emergency stop switch is different from the “Stop” or “All Stop” button on the point-of-sale (POS) console. The emergency stop switch is required by national fire codes. Contact a qualified petroleum storage system service contractor if you cannot locate the emergency stop switch.

Class C operator printed name: __________________________________________________________

Class C operator signature: ____________________________________________ Date: ____________

Class A or B operator providing the Class C training: ____________________________________________

Class A or B Operator signature: ____________________________________________ Date: ____________

ADEC Facility ID, name and address of the facility(ies) where training is applicable:

All Class C operators shall complete a State of Alaska Department of Environmental Conservation approved Class C Operator training program before assuming responsibilities as a Class C operator or no later than December 31, 2012 if already acting in the capacity of a Class C operator. Owners shall maintain this form for a minimum of three (3) years and make it available to any person identified in 18 AAC 78.100(a)(1) upon request. No passing score is necessary; however, completing on-site training and this form does meet the Class C operator training requirements outlined in AAC 18 AAC 78.008.
