

Notification for Utility Sources on EPA's proposed rule:

As you may be aware, EPA has published proposed rules on National Emission Standards for Hazardous Air Pollutants from Coal- and Oil-Fired Electric Utility Steam Generating Units and Standards of Performance for Fossil-Fuel-Fired Electric Utility, Industrial-Commercial-Institutional, and Small Industrial-Commercial-Institutional Steam Generating Units.

The proposed rules can be found at: <http://www.regulations.gov/#!documentDetail;D=EPA-HQ-OAR-2011-0044-0001>

Comments are due to EPA on or before July 5, 2011. Information on how to provide comments can be found in the proposed rule.

The Alaska Department of Environmental Conservation will be making comments to EPA and encourages facilities that might be affected to review the proposed rule and make their own comments if necessary.

If you would like to contact someone at ADEC to discuss the rule, please call Tom Turner at 907-269-8123 or e-mail him at Thomas.turner@alaska.gov
