

DEPARTMENT OF ENVIRONMENTAL CONSERVATION

Standard Operating Permit Condition V – Insignificant Emission Units

**Permit Condition for Air Quality Permits
Adopted by Reference in 18 AAC 50.346**

April 1, 2002

REVISED August 25, 2004

Standard Operating Permit Condition V – Insignificant Emission Units

Emission Unit [SOURCE OR FACILITY] Categories This Condition Applies to: **Emission Units [SOURCES]**

1. that are insignificant as defined in 18 AAC 50.326(d)-(i);
2. that do not have control equipment for complying with an emissions standard or reducing emissions below a threshold in 18 AAC 50.326(e); and
3. for which the department has not included monitoring, record keeping, or reporting in another condition of the permit to ensure compliance with an emission standard other than 18 AAC 50.110.

Standard permit condition V will be used in any operating permit unless the department determines that **emission unit** [SOURCE] or **stationary source** [FACILITY] specific conditions more adequately meet the requirements of 18 AAC 50.

Permit Wording:

1. **Insignificant Emission Units [SOURCES].** For **emission units** [SOURCES] <include **emission unit** [SOURCE] identification for any insignificant **emission units** [SOURCES] listed in the permit that qualify for this condition> and for **emission units** [SOURCES] at the facility that are insignificant as defined in 18 AAC 50.326(d)-(i) that are not listed in this permit, the following apply:
 - 1.1 the permittee shall submit the compliance certifications of condition <cite applicable condition number in this permit> based on reasonable inquiry;
 - 1.2 the permittee shall comply with the requirements of condition <insert cross reference to standard operating condition II – air pollution prohibited>;
 - 1.3 the permittee shall report in the operating report required by condition <insert cross reference to standard permit condition VII - operating reports> if **an emission unit** [SOURCE] listed in this condition V.1. because of actual emissions less than the thresholds of 18 AAC 50.326(e) has actual emissions greater than any of those thresholds;
 - 1.4 no other monitoring, record keeping, or reporting is required.

The following apply to this standard permit condition:

1. Standard permit condition V will be used with conditions that reiterate the emission standards of 18 AAC 50.055 as they apply to insignificant sources.
