

**NOTICE OF FOURTH MEETING OF THE TECHNICAL SUBGROUP OF GLOBAL AIR
PERMIT POLICY DEVELOPMENT FOR TEMPORARY OIL AND GAS DRILL RIGS
WORKGROUP**

The Alaska Department of Environmental Conservation (DEC) and the Alaska Department of Natural Resources (DNR) have organized a workgroup to discuss air quality concerns and operational limitations for temporary oil and gas drill rig operations at existing oil and gas facilities. This workgroup will develop recommendations for improving air permit program policies and procedures, and includes representatives from the following interested parties:

- DEC Air Quality Division
- DNR Oil and Gas Division
- Alaska Oil and Gas Association (AOGA)
- Cook Inlet Regional Citizens Advisory Council (CIRCAC)
- Alaska Support Industry Alliance
- North Slope Borough

Monthly meetings of the workgroup will discuss options for changing air quality permitting of temporary oil and gas drill rigs to allow for greater operational flexibility while still addressing air quality concerns, such as the federal standards that protect air quality.

This notice concerns the fourth meetings of the Drill Rig Workgroups Technical Subgroup.

The Drill Rig Workgroup (DRWG) Technical Subgroup's fourth meeting will be held on Thursday, March 13, 2014, from 3:00 to 4:00 pm. The meeting will be held via GoToMeeting. Directions for joining the meeting are as follows:

This is set up as a GoTo Meeting teleconference, but if any members of the Subgroup in Anchorage would prefer a face-to-face meeting, you are welcome to come to the following address:
