Presents the

Surface Water Treatment and Disinfection and Disinfectant Byproduct Rules Training

October 31-November 2, 2006

Wilda Marston Theatre
Z.J. Loussac Public Library
3600 Denali Street
Anchorage, AK 99503

The workshop is free, **but registration is required.**
You can register online at www.cadmusgroup.com/dev/akdec

*** Registration closes October 22, 2006.***

If you have any questions, please contact Chris Clark at (907) 269-7631 or
chris_clark@dec.state.ak.us.

Presenters

Ed Moriarty (EPA), Dan Frazier and Linda Hills (Cadmus Group) and Cindy Christian, Vanessa Wike and James Weise (ADEC Drinking Water Program)

Training Content

The training will focus on microbial removal and disinfection byproducts related to surface water treatment systems. ADEC will present an overview of Alaska's public water systems. Ed Moriarty, EPA, will provide an in-depth look at the regulations affecting drinking water treatment, the intent of each rule and how these rules build on each other to protect public health. Cadmus representatives Dan Frazier and Linda Hills will lead exercises on pertinent issues related to Alaskan drinking water systems design and operations.

Attendees will learn about the Surface Water Treatment Rule (SWTR), Interim Enhanced Surface Water Treatment Rule (IESWTR), and Long Term 1 Enhanced Surface Water Treatment Rule (LT1ESWTR). In particular, the workshop will cover issues on the Multiple Barriers Approach, Disinfection and Contact Time, Baffling and Tracer Studies, and Filter Self-Assessments.

Additionally, attendees will learn about the Stage 1 Disinfectants and Disinfection Byproduct Rule (Stage 1 DBPR), options for controlling disinfection byproducts (DBPs) and profiling and benchmarking.

There will be a brief overview of the two new rules, Long Term 2 Enhanced Surface Water Treatment Rule (LT2ESWTR) and Stage 2 Disinfectants and Disinfection Byproduct Rule (Stage 2 DBPR).
