

Reportable Diseases for Animals and Animal Products to the State Veterinarian:

Certain disease conditions pose or may pose significant threats to animal health, public health, the environment, or the food supply. Any licensed veterinarian, any person operating a diagnostic laboratory, or any person who has been informed, recognizes or should recognize, by virtue of education, experience, or occupation, that any animal or animal product is, or may be affected by, has been exposed to, or may be transmitting or carrying any of the following diseases must report that information to the State Veterinarian by telephone or facsimile.

Any animal disease not known to exist in the United States, any disease for which a control program already exists, or any unexplained increase in the morbidity or mortality of any animal population must be reported. Any conditions caused by exposure to toxic substances that have or may have the potential to be an animal health, public health, or food safety threat must be reported immediately.

Immediate Reporting the discovery of, the existence of, or the suspected existence of the following foreign or eradicated diseases:

- | | |
|--|--|
| (1) African Horse Sickness; | (19) Japanese Encephalitis; |
| (2) African Swine Fever; | (20) Lumpy Skin Disease; |
| (3) Bovine Spongiform Encephalopathy (BSE); | (21) Malignant Catarrhal Fever |
| (4) Caprine and Ovine Brucellosis (excluding <i>B. ovis</i>); | (Wildebceest or foreign strain); |
| (5) Classical Swine Fever (Hog Cholera); | (22) Nairobi Sheep Disease; |
| (6) Contagious Bovine Pleuropneumonia; | (23) Ovine Pulmonary Adenomatosis; |
| (7) Contagious Equine Metritis; | (24) Peste des Petits Ruminants; |
| (8) Contagious Agalactia; | (25) Rabies |
| (9) Contagious Caprine Pleuropneumonia; | (26) Rift Valley Fever; |
| (10) Dourine; | (27) Rinderpest; |
| (11) Enterovirus Encephalomyelitis (exotic strains); | (28) Salmonellosis (<i>S. abortus ovis</i>); |
| (12) Epizootic Lymphangitis; | (29) Screwworm; |
| (13) Equine Piroplasmiasis; | (30) Pox in sheep or goats; |
| (14) Exotic Newcastle Disease; | (31) Surra (<i>Trypanosoma evansi</i>); |
| (15) Foot and Mouth Disease (all types); | (32) Theileriasis; |
| (16) Glanders; | (33) Trypanosomiasis; |
| (17) Heartwater; | (34) Venezuelan Equine |
| (18) Horse Pox; | Encephalomyelitis. |

Report by the End of the Day the discovery of, the existence of, or the suspected existence of the following domestic animal diseases:

- | | |
|---|---------------------------|
| (1) Anthrax; | (4) Sylvatic Plague; |
| (2) Avian influenza (High or Low Pathogen); | (5) Vesicular Stomatitis; |
| (3) Swine Vesicular disease; | (6) West Nile virus. |

The following **Foreign Fish Diseases** are included in this category:

- (1) Epizootic Hematopoietic Necrosis;
- (2) Herpesvirosis of Salmonids (Onchorynchus Masou Virus Disease);
- (3) Spring Viremia of Carp
- (4) Viral Hemorrhagic Septicemia (European Strain).

Report by the Next Working Day after discovery of, the existence of, or the suspected existence of the following animal diseases (presence of clinical signs or positive diagnostic tests:

- | | |
|--|--|
| (1) Brucellosis; | (11) Ornithosis or Psittacosis in birds; |
| (2) Contagious Ecthyma; | (12) Pullorum Disease; |
| (3) Chronic Wasting Disease (CWD); | (13) Potomac Horse Fever; |
| (4) Eastern or Western Equine Encephalitis; | (14) Pseudorabies; |
| (5) Equine Infectious Anemia | |
| (6) Fowl Typhoid (<i>Salmonella gallinarum</i>); | (15) Scrapie; |
| (7) Infectious Coryza; | (16) Tuberculosis (<i>M. tuberculosis</i> , <i>M. bovis</i> or <i>M. avium</i>); |
| (8) Infectious Bronchitis (Avian) | |
| (9) Laryngotracheitis (Avian Infectious); | (17) Tularemia |
| (10) Lyme disease; | |

Report by the Fifth Working Day of Each Month the first case of the following animal diseases as diagnosed by laboratory procedures on any animal during the previous month:

- | | |
|-------------------|--|
| (1) Anaplasmosis; | (19) Fowl Cholera (<i>Pasteurella multocida</i>) |
|-------------------|--|

- | | |
|---|--|
| (2) Atrophic rhinitis; | (20) Fowl Pox; |
| (3) Babesiosis; | (21) Hemorrhagic Septicemia (<i>Pasteurella multocida</i>); |
| (4) Bovine Genital Campylobacteriosis; | (22) Horse Mange; |
| (5) Avian Infectious Bronchitis; | (23) Infectious Bursal Disease ; |
| (6) Avian Tuberculosis; | (24) Infectious Bovine Rhinotracheitis |
| (7) Caprine Arthritis/Encephalitis; | (25) Infectious Hematopoietic Necrosis |
| (8) Cysticercosis; | (26) Leptospirosis; |
| (9) Dermatophilosis (<i>Dermatophilus congolensis</i>); | (27) Ovine Progressive Pneumonia; |
| (10) Duck Viral Enteritis; | (28) Marek's Disease |
| (11) Duck Viral Hepatitis; | (29) <i>Mycoplasma gallisepticum</i> ; |
| (12) Blue Tongue; | (30) Ovine Epididymitis (<i>B. ovis</i>); |
| (13) Echinococcosis/Hydatidosis; | (31) Paratuberculosis (Johne's Disease); |
| (14) Enzootic Abortion of Ewes (<i>Chlamydia psittaci</i>); | (32) Porcine Reproductive / Respiratory Syndrome; |
| (15) Enzootic Bovine Leukosis; | (33) Q Fever (<i>Coxiella burnetti</i>); |
| (16) Equine Influenza (Virus type A); | (34) Transmissible Gastroenteritis; |
| (17) Equine Rhinopneumonitis (1 and 4); | (35) Trichomoniasis. |
| (18) Equine Viral Arteritis; | |

Report by the Tenth Working Day of Each Month the first case of the following animal diseases where there are clinical signs or as diagnosed by a laboratory performing testing or diagnostic procedures on any animal during the previous month:

- | | |
|---|--|
| (1) Aleutian Disease in mink | (21) Listeriosis; |
| (2) Avian Chlamydiosis; | (22) Malignant Edema in equine or cattle; |
| (3) Blackleg (<i>Clostridium chauvoei</i>); | (23) Malignant Catarrhal Fever (Sheep associated strain); |
| (4) Bovine Viral Diarrhea | (24) Mycotic Stomatitis; |
| (5) Botulism; | (26) Newcastle Disease (lentogenic or low pathogenic strain); |
| (6) Campylobacteriosis; | (28) Salmonellosis |
| (7) Cryptosporidiosis (clinical cases only); | (29) Scabies in swine or other small animals (Psoroptic mange); |
| (8) Distemper in dogs or mink; | (30) Strangles (<i>S. equi</i>); |

- (9) Edema Disease;
- (10) Equine Protozoal Myeloencephalitis;
- (11) Erysipelas;
- (12) Feline Panleukopenia;
- (15) Heartworm;
- (16) Histoplasmosis;
- (17) Influenza in swine or equine;
- (19) Bovine Leukosis;
- (31) Tetanus (*C. tetani*);
- (32) Transmissible Encephalopathy in
mink
- (33) Toxoplasmosis
- (34) Trichomoniasis.
