

**NOTICE OF THIRD MEETINGS OF SUBGROUPS OF GLOBAL AIR PERMIT POLICY  
DEVELOPMENT FOR TEMPORARY OIL AND GAS DRILL RIGS WORKGROUP**

The Alaska Department of Environmental Conservation (DEC) and the Alaska Department of Natural Resources (DNR) have organized a workgroup to discuss air quality concerns and operational limitations for temporary oil and gas drill rig operations at existing oil and gas facilities. This workgroup will develop recommendations for improving air permit program policies and procedures, and includes representatives from the following interested parties:

- DEC Air Quality Division
- DNR Oil and Gas Division
- Alaska Oil and Gas Association (AOGA)
- Cook Inlet Regional Citizens Advisory Council (CIRCAC)
- Alaska Support Industry Alliance
- North Slope Borough

Monthly meetings of the workgroup will discuss options for changing air quality permitting of temporary oil and gas drill rigs to allow for greater operational flexibility while still addressing air quality concerns, such as the federal standards that protect air quality.

This notice concerns the second meetings of the Drill Rig Workgroups Technical Subgroup and the Drill Rig Workgroup Options Subgroup.
