**Glutino Recalls Rosemary and Olive Oil Snack Crackers for Possible Salmonella Contamination**

(JUNEAU, AK) Glutino has issued a recall for Glutino Rosemary and Olive Oil Snack Crackers because the seasoning supplied by an outside source may be contaminated with Salmonella.

Salmonella is an organism that can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain beginning 12-72 hours after infection. The illness usually lasts four to seven days. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis, and arthritis. People exhibiting any of these symptoms should contact their healthcare provider.

The recalled product is sold in 4.25-ounce and 20-ounce opaque white boxes with a “Best By” stamped on the top of the box.
