Lat. 65° 14.26 N Lon. 166°54.21 W	Deflection Deflect oil coming towards Port Clarence Beach out into deeper water for free-oil recovery. If natural deflection is sufficient for Free-oil Recovery, deployment is not necessary. Sea state and surf conditions may preclude the use of this tactic. Weather should be closely monitored to ensure safe operating conditions.	Deploy boom and anchor system with skiffs (class 6). Position in a cascaded fashion 3 x 300 ft. of protected-water boom at a proper angle to deflect oil from Port Clarence Beach. Tend throughout the tide.
