

18th Annual ATCEM Anchorage, Alaska

Kuskokwim River Watershed Council

KUSKOKWIM RIVER Watershed Council

Mission and Vision Statements

Mission

The KRWC is dedicated to maintaining and promoting traditional subsistence life for the residents of the KRW.

Vision

We will keep our land, water and air healthy for our people, animals and plants, to pass on to the next generations.

In 10 years, all the villages will have environmental programs implemented, with a strong self sufficient and effective communication network, thus becoming a world wide reference for land and water stewardship.
