

GPA and GP3 Fees
Department of Environmental Conservation
Air Quality Control Regulations
18 AAC 50
As Amended through September 7, 2022

The owner or operator of a GPA or GP3 permit shall pay fees as follows:

1. Permit Administration Fee under 18 AAC 50.400(c)(1).
Fee is due with submission of application.

(c)(1) If the department prepares a new or revised general operating permit or a new or revised general minor permit, the department will determine the cost of that permit by multiplying the number of hours the department spent to develop the permit by the hourly rate of salary and benefits of the department employees who developed the permit, and by adding to the resulting amount any other direct costs. This cost will be divided by the number of permittees who receive or are expected to receive the permit to determine the permit administration fee.

As of September 7, 2022, the Permit Administration Fee for a GPA permit is \$3,256.

As of September 7, 2022, the Permit Administration Fee for a GP3 permit is \$2,822.

2. Annual compliance review fee for a GPA under 18 AAC 50.400(a)(7).
The Department will bill the annual compliance review fee in accordance with 18 AAC 50.420.

(7)(B) for a Title V source that is operating under the department's general operating permit for diesel engines, the annual compliance review fee is \$2,148;

Annual compliance review fee for a GP3 under 18 AAC 50.400(a)(8).
The Department will bill the annual compliance review fee in accordance with 18 AAC 50.420.

(8)(B) for a Title V source that is operating under the department's general operating permit for asphalt plants, the annual compliance review fee is \$2,975;

3. Emission fees as billed and specified under 18 AAC 50.410(a) - (b).
The Department will bill the emission fees in accordance with 18 AAC 50.420.

18 AAC 50.410. Emission fees. (a) For each period from July 1 through the following

June 30, the permittee, owner, or operator shall pay to the department an annual emission fee based on the stationary source's assessable emissions for that year for each stationary source that is subject to a permit under this chapter. The emission fee is assessed per ton for total tonnage projected, as reported on a per pollutant basis. All total projected tonnage will be billed emission fees.

(b) Except as provided in (c) and (g) of this section, emission fees will be assessed as follows:

(1) for stationary sources required to obtain an operating permit under AS 46.14.130(b), an emission fee rate of \$84.29 per ton, that will be allocated to the clean air protection fund under AS 46.14.260;

(2) for stationary sources not subject to (1) of this subsection but otherwise required to obtain a permit under AS 46.14.130, the emission fee rate of \$17.70 per ton; the amount will be allocated to the emissions control permit receipts account under AS 46.14.265.
