State of Alaska Import Requirements March 2017

CERVIDS (REINDEER, ELK, MOOSE, DEER)

General Importation Requirements

1. **All cervids imported into Alaska must be accompanied by an Alaskan importation permit and health certificate.**
 - Both documents must be attached to the waybill for the animal and must accompany the animal at all times.
 - **Exception:** Animals intended for immediate slaughter (within 10 days of arrival) do not require a health certificate if the appropriate conditions are met (see note below for further information).
2. No animal may be imported that is affected with an infectious, contagious, or communicable disease, or is known to have been exposed to one in the last 30 days.
3. No animal may be imported that originates from a quarantine area as designated by another state, federal government, or foreign country.
4. Animals must be transported in a vehicle appropriate for the size and number of animals being transported, free of hazards that could injure the animals, and maintained in a sanitary condition.

Importation Permit Requirements

1. Importation permit applications can be completed online by a veterinarian at:
<http://dec.alaska.gov/Applications/EH/ATS/index.html>
2. Permit is valid for 30 days after issuance and is non-transferable.
3. A single permit may be obtained for multiple animals of the same class.

4. Application must include:
 - (1) Name, address, and contact information of the person who is importing the animal, and for the person who will be responsible for the animal in Alaska;
 - (2) Physical address or point of origin of the shipment;
 - (3) Physical address of the destination of the shipment; and
 - (4) Results of required diagnostic tests.

5. Alaskan importation permit must be affixed to, or the permit number written on the health certificate and identified on any other official document as "Alaska Permit No. ____."

Health Certificate/Certificate of Veterinary Inspection Requirements

1. Health certificates can be obtained from any licensed and accredited veterinarian in the state or country of origin; one copy of the certificate must be provided to the Alaska State Veterinarian.

2. Valid for 30 days after issuance.

3. Certification must include:
 - (1) Name, address, and contact information of the person who is importing the animal, and for the person who will be responsible for the animal in Alaska;
 - (2) Physical address or point of origin of the shipment;
 - (3) Physical address of the destination of the shipment;
 - (4) Age, sex, breed, color, and markings of each animal;
 - (5) Any identification numbers or information;
 - (6) Dates and records of required tests or vaccinations;
 - (7) Certification that each animal:**
 - i. Is free from evidence of, or known recent exposure to, infectious, contagious, or communicable diseases;
 - ii. Is free of ectoparasites, or has been treated with an approved product within 10 days of import;
 - iii. Has been treated with an appropriate anthelmintic medication within 20 days of import;
 - iv. Does not originate from, and has never been located, east of 97° west longitude in the United States or Canada;
 - v. Originates from a herd that is from an area designated as brucellosis and tuberculosis free, or has tested negative for brucellosis and tuberculosis within 60 days of import;
 - Note: After arrival, any animal may be retested for brucellosis and/or tuberculosis at the discretion of the State Veterinarian, and kept in isolation 45 - 120 days.
 - vi. Has not resided within 10 miles of a cervid diagnosed with chronic wasting disease within 60 months of shipment; and

- vii. Originates from a herd that participates in a USDA or state chronic wasting disease herd certification program and has achieved 5-year chronic wasting disease certified status.
- (8) Date and place of examination; and
- (9) Name, contact information, and signature of the certifying veterinarian.

Animals intended for **immediate slaughter** do not require a health certificate if:

- An import permit accompanies the shipment;
- The waybill that accompanies the shipment states the animal is for immediate slaughter;
- The animal is kept in an official USDA-approved, federally-inspected slaughterhouse; and
- The animal will be slaughtered within 10 days, or an exception is granted by the State Veterinarian.

If the above conditions are not met, or it is determined to serve the interests of animal or public health, the State Veterinarian may order an animal quarantined at the owner's expense until such time as it is released from quarantine, euthanized, slaughtered, or destroyed.

Import of Cervid Trophies or Carcasses

1. Unless specified below, a person may not import any whole or partial cervid carcasses. Carcass parts that may be imported are:
 - a. De-boned or processed meat that has been cut and wrapped commercially;
 - b. Quarters or other meat portions with no spinal column, including dorsal root ganglion or head attached;
 - c. Hides with no head attached;
 - d. Clean and disinfected skull plates or whole skull (European mount), with no meat or nervous tissue attached;
 - e. Teeth; and
 - f. Taxidermy mounts or trophies.
2. A person who is notified that a carcass imported into the state tested positive for chronic wasting disease shall report these findings to the State Veterinarian within seven days.

Requirements for Importation of Animals Originating in Canada

1. All State of Alaska import requirements must be met, as described above.
2. A USDA Entry Permit issued by the National Center for Import/Export (NCIE) must be obtained: https://www.aphis.usda.gov/aphis/ourfocus/importexport_VS-Live.Animals_Import.Permits@aphis.usda.gov, or (301) 851-3300.
3. Animals must be kept isolated at the destination until they are checked post-entry by the Alaska USDA APHIS Veterinary Medical Officer (VMO). It is the responsibility of the owner to contact the VMO to arrange for an inspection.
Dr. Mark Miller, DVM
USDA APHIS Veterinary Medical Officer (VMO) - Alaska
(907) 688-1229 (office)
(907) 229-7656 (cell)
(907) 746-0873 (FAX)
mark.a.miller@aphis.usda.gov or alaska.import.export@aphis.usda.gov
4. Resources for additional information regarding the import of animals into the United States:
 - a. The State of Alaska VMO (contact information above)
 - b. The Canadian Food Inspection Agency: 1-800-442-2342 or 1-855-212-7695
 - c. The USDA Animal and Plant Health Inspection Service Import Export: https://www.aphis.usda.gov/aphis/ourfocus/importexport_VS-Live.Animals_Import.Permits@aphis.usda.gov
 - d. Customs and Border Protection (to determine if a broker is required for the shipment): <https://www.cbp.gov/contact/ports/alcan> or (907) 774-2252.
