

2019 Shellfish Harvester Application
 Alaska Department of Environmental Conservation
 Division of Environmental Health
 Food Safety & Sanitation Program

APPLICATION INSTRUCTIONS

This annual application must be submitted for a person who harvests bivalve shellfish from a classified growing area to be sold as part of commerce and intended for human consumption.

Describe in a narrative: (1) Shellfish holding container material, temperature controls, and how product is protected from contamination during transport to the buyer. (2) Provide a map and description of the location of the shellfish growing or harvest area.

Submit a waterproof, tear proof shellfish tag that is used for tagging harvested shellfish. Minimum size must be 2-5/8 inches X 5-1/4 inches. **A sample of a harvester's tag must be submitted with a new permit application or with a renewal permit application.**

The tags must contain the information in the order shown in the example below at minimum.

A "Harvester" is defined as any person who takes shell stock by any means from a shellfish growing area to be sold as part of commerce and intended for human consumption. A Harvester shall submit to the Department a completed Shellfish Harvester's application provided by the Department. A Harvester who is also a permitted Shellfish Dealer (Shellfish Shipper or Shucker Packer) does not need to apply for a Harvester's Permit.

Shellfish dive/harvest vessels must be permitted by the Alaska Department of Environmental Conservation (ADEC). If your vessel or the vessel you intend to dive from is not permitted, the vessel owner must apply for a Geoduck dive vessel permit. All commercial shellfish harvesting must be in a classified area, and harvesters must list each harvest area they will operate in. Harvesters must sell to permitted shellfish dealers. The name(s) of the shellfish dealers must be listed in the application.

Bait shellfish must be dyed. Use FD&C#1 Blue dye prior to leaving the harvest area. **Explain where and how bait shellfish will be handled and identified on your vessel.** Bait shellfish may not be stored or transported with product for human consumption from an unapproved area.

Mail application, plans, drawings, narrative, tag example and fees to: Alaska DEC-FSS Program – Shellfish Permits,
