

Remote Camps and Lodges General Permit Application

**Alaska Department of Environmental Conservation
Solid Waste Program**

ADEC Office Only:

Landfill Name:

Authorization #:

Instructions

This application is for coverage under the Statewide General Permit for solid waste disposal for remote camps and lodges with an average daily population of less than 50 people

In the application, the term **“facility”** refers to all land, structures, other appurtenances, and improvements on land used for treatment, storage, or disposal of solid waste.

This authorization will only be issued under the following conditions:

- Waste must be generated at a lodge or temporary camp with an average daily population of less than 50 people.
- Disposed waste must consist solely of incinerated domestic solid waste, inert waste, and septage.
- Annual volume of waste may not exceed 50 cubic yards of ash from incinerated domestic waste, 50 cubic yards of inert waste, and 5,000 gallons of septage.
- The facility must be located in a remote area with no year-round ground access to a system of connected roads with a total length of 100 miles or more **OR** all permitted landfills are either not accessible by road or are more than 25 road miles away or have refused, in writing, to accept the waste.

If these conditions do not apply, you may apply for a Class III Camp Landfill permit or the waste must be disposed in an existing permitted landfill.

If a required item is not applicable, please explain why. Please organize and number all attachments and identify which attachment applies to each item. Where information can be filled in, the text box should expand as needed to fit the response. Click on the grey box (appears when you hover over or click in the space) to enter text.

Section 1. Property Information

Section 3. Fees

Submit payment payable to “State of Alaska” to cover the \$115 annual fee as listed in 18 AAC 60.700 Table E-4 for the initial application for a facility. If not included, the application will be returned to the applicant.

Subsequent annual fees will be billed each calendar year until ADEC approves closure of the facility.

Section 4. Project Overview											
1.	The lodging facility is a:		<input type="checkbox"/> Remote lodge or resort				<input type="checkbox"/> Temporary work camp (expected to operate less than 10 years)				
2.	Estimated Daily Population - For each month of operation, enter the estimated average daily population at the camp or lodge during that month, including all residents, guests, staff, and visitors:										
	January		February		March		April		May		June
	July		August		September		October		November		December
	Calculate Average Daily Population:		Total of numbers above			/	Number of operating months (any month population does not =0)			=	
3.	Type of unit used to incinerate waste:		<input type="checkbox"/> Burn box, cage, or barrel - Model type:								
			<input type="checkbox"/> Incinerator - Model type:								
4.	Will septage or sewage solids be disposed at the facility?									<input type="checkbox"/> Yes	<input type="checkbox"/> No

Section 5. Location Information			
1.	Property Ownership		
	a. Attach a copy of the deed or another legal document that identifies the landowner.	Att. #:	
	b. If the applicant is not the landowner, attach a written statement signed by the landowner showing that the landowner consents to the disposal site and agrees to the placement of a notation on the deed, or a copy of any lease agreement that is relevant to the proposed activity.	Att. #:	
2.	Is the facility in a remote area with no year-round ground access to a system of connected roads with a total length of 100 miles or more? OR Are any permitted landfills located within 25 road miles of the facility? If yes, attach a copy of written refusal to accept the waste.	<input type="checkbox"/> Yes <input type="checkbox"/> Yes	<input type="checkbox"/> No <input type="checkbox"/> No
3.	Maps Attach updated maps and/or aerial photographs as needed to show the following: (each map may show more than one of the required items: property boundaries, disposal areas, etc.)		
	a. Location of the facility property boundary.	Att. #:	
	b. All planned disposal locations (must be at least 50 feet from the property boundary).	Att. #:	
	c. Septage trench (if applicable).	Att. #:	
	d. Buildings and structures	Att. #:	
	e. Location of burn unit or incinerator	Att. #:	
	f. Roads, ditches, berms, fences, or other features	Att. #:	
	g. Location and flow direction of all surface water bodies, streams, and containment or diversion structures within 500 feet of the facility property boundary.	Att. #:	
	h. Location of all drinking water sources within one-half mile of the facility property boundary. There should be no drinking water sources within 500 feet of the facility property boundary.	Att. #:	
	i. Location of any wetlands within 500 feet of the facility property boundary.	Att. #:	

Section 5. Location Information (continued)			
	j. Location of permafrost or discontinuous permafrost within 500 feet of the facility property boundary.	Att. #:	
	k. Location of any 100-year floodplain in the area.	Att. #:	
	l. Location of any documented earthquake faults or unstable areas within 200 feet of the facility property boundary.	Att. #:	
4.	Surface Water Information		
	a. Distance to nearest surface water body:		feet
	b. Describe how surface water and/or storm water will be prevented from entering the disposal cell(s).		
5.	Groundwater Information		
	a. Distance to Groundwater:		feet below ground surface
	b. Describe or attach information documenting how the groundwater level at the facility was determined.		

Section 6. Operations Information			
1.	Access Control		
	a. Describe how public access to the facility will be restricted?		
2.	Waste Handling - Domestic waste and food garbage must be incinerated prior to disposal.		
	a. List the wastes that will be stored onsite to be shipped to another facility for processing or disposal.		
	b. Describe how burnable and non-burnable waste will be separated.		

Section 6. Operations Information (continued)

	c. Describe the operation of the burn unit	
	d. Describe how non-burnable waste and ash from burnable waste will be disposed.	
3.	Septage (if applicable)	
	a. Describe how septage trench will be constructed and operated. Include a description of how lime will be added and septage tested to ensure it meets a pH of 12. Please indicate “N/A” if no septage will be disposed.	
4.	Landfill Cover	
	a. Six inches of soil cover must be applied to the waste at least once each week.	<input type="checkbox"/> Understood
	b. Where will cover material be obtained?	
	c. Where will cover material be stored?	
	d. At least 12 inches of interim cover must be applied to both the solid waste cell and the septage trench at the end of the working season.	<input type="checkbox"/> Understood <input type="checkbox"/> NA – operate year-round
5.	Operating Record	
	For each of the following records, list the individual responsible for maintaining the record and the location where each of the records will be kept. Note, the records must be retained for at least 5 years beyond the closure date of the facility.	
	<u>Record</u>	<u>Record Keeper</u>
	<u>Record Location</u>	
	Copy of the complete application	
	Copy of the ADEC authorization	
	Visual monitoring records	

Section 7. Facility Closure

1.	Describe the steps necessary to close the facility and attach a timeline of closure activities, including:		
	a. Identify the source and expected volume of the cover materials:		
	<u>Material</u>	<u>Volume</u> (cubic yards)	<u>Source</u>
	18" Clean fill soil		
	6" of topsoil or other growth media		
	b. Describe how the cover will be graded to promote surface water runoff and prevent ponding.		
	c. List the plant species that will be used for revegetation of the site, as recommended by the Alaska Plant Material Center (907-745-4469), or describe other revegetation plans.		
	d. Describe the location (or show on a map) and process for installation of four permanent markers, one at each of the corners of the disposal cell.		
2.	Attach conceptual closure drawings that show:		
	a. Projected final site grades after the disposal site reaches capacity.	Att. #:	
	b. Final cover details.	Att. #:	

Section 8. Specific Conditions

Your signature below indicates that you agree to each of the following conditions regarding construction, operations, closure, and post closure care of the facility.

1.	Local ordinances and requirements will be adhered to in construction and operations of the facility.
2.	Waste will be inspected prior to disposal to ensure that only domestic waste ash, inert waste, and septage will be disposed at this site. Other types of waste are prohibited.
3.	No more than 50 cubic yards of ash, 50 cubic yards of inert waste, and 5,000 gallons of septage will be disposed at this site each year.
4.	All combustible waste will be thoroughly burned prior to disposal.
5.	At least 6 inches of soil will be applied to the waste as cover at least once each week during the active season. 12 inches of soil will be applied as interim cover at the end of each season.
6.	Septage will be disposed in a trench separate from other wastes, treated with lime, and covered as required in the permit.
7.	Improper or unauthorized waste disposal or spills will be cleaned up immediately.
8.	Any violations of regulations or conditions of the authorization will be addressed immediately and reported to ADEC as appropriate.
9.	Each calendar year, before December 31, submit a brief report to DEC on the current status of the facility as outlined in the permit.
10.	Closure of the facility will begin no later than 60 days after the last waste is deposited.
11.	Permanent markers from which a survey could be performed will be installed at the four corners of each disposal cell.
12.	Photos will be submitted to ADEC before equipment is demobilized from the community, showing 4 sides of the each disposal cell. ADEC will determine if additional closure measures are required.
13.	A closure report will be submitted to ADEC for approval within 90 days of final waste placement. The report will include: <ul style="list-style-type: none">• An updated site map showing the boundaries of the disposal cell.• Documentation of the depth and volume of waste deposited• Documentation that the required notation has been made to the property deed• Photos showing the integrity of the final cover
14.	Annual fees for the facility will be paid until the closure report has been submitted and approved by ADEC.
15.	The cover of this disposal site will be corrected or repaired, at any time after facility closure is approved, if ADEC determines that there is a threat to human health or the environment.

Section 9. Signature

I certify, under penalty of perjury, that all of the information and exhibits in this application are true, accurate, and complete and I agree to the specific conditions above.
