Class “C” Underground Storage Tank Operator Training Recommended In-house Training Certification Checklist

The purpose of this form is to document that employees designated as Class C operators have completed training required by Alaska Administrative Code (AAC) 18 AAC 78.360-78.380. Class C operators are responsible for the initial response to alarms or other indications of emergencies at a facility. Class C operators shall complete the following questions:

Is this <u>Initial</u> Class “C” training or <u>annual refresher</u> training?	<input type="checkbox"/> Initial Training <input type="checkbox"/> Annual Refresher Training
--	---

- 1) Have you received training identifying the telephone number to call the fire department for this facility and is this number posted in a clearly visible location? Yes No
- 2) Have you received training identifying the list of company people who should be notified in an emergency and is this list posted in a clearly visible location? Yes No
- 3) Have you received training identifying the actions to take concerning the Emergency Shut off Switch? Yes No
- 4) Have you received training identifying how to respond to various alarm messages that may appear on the display of the tank monitoring system? Yes No

#4 NOTE: If you do not know how to read the display or what messages to expect if there is a problem with the storage system, look in the tank monitoring manual to find this information or call a qualified petroleum system contractor and have them explain this information to you.

- 5) Have you received training identifying how to locate and properly recognize the following items: dispenser, hose, nozzle, and breakaway coupling? Yes No

#5 NOTE: The emergency stop switch shuts off power to all the dispensers and fuel pumps. The emergency stop switch is different from the “Stop” or “All Stop” button on the point-of-sale (POS) console. The emergency stop switch is required by national fire codes. Contact a qualified petroleum storage system service contractor if you cannot locate the emergency stop switch.

Class C operator printed name: _____

Class C operator signature: _____ Date: _____

Class A or B operator providing the Class C training: _____

Class A or B Operator signature: _____ Date: _____

ADEC Facility ID, name and address of the facility(ies) where training is applicable:

All Class C operators shall complete a State of Alaska Department of Environmental Conservation approved Class C Operator training program before assuming responsibilities as a Class C operator. Owners shall maintain this form for a minimum of three (3) years and make it available to any person identified in 18 AAC 78.056 (a)(1) upon request. No passing score is necessary; however, completing on-site training and this form does meet the Class C operator training requirements outlined in AAC 18 AAC 78.365.
