

NOTICE OF PROPOSED CHANGES IN THE
REGULATIONS OF THE DEPARTMENT OF ENVIRONMENTAL CONSERVATION
SUPPLEMENTAL NOTICE

The Department of Environmental Conservation proposes to adopt regulation changes in Title 18 of the Alaska Administrative Code, dealing with pesticide product registration, pesticide permit term length, and pesticide permit public notice requirements, including the following:

- (1) 18 AAC 90.205, which describes the requirements for registering pesticide products in the state of Alaska, is proposed to be amended to require applicants to submit application materials in the format required by the department.
- (2) 18 AAC 90.520, which establishes public notice and public hearing requirements for pesticide permits, is proposed to be amended to require public notice for all pesticide permits, rather than just some, and to remove redundant language.
- (3) 18 AAC 90.530, which establishes the term length of a pesticide permit, is proposed to be amended to change the length of the allowable term of the permit, and to eliminate permit renewals.
- (4) 18 AAC 90.850, which establishes the fees required to register pesticide products in the state of Alaska, is proposed to be amended to alter the fees charged to more accurately reflect costs to the department.

This supplemental notice was issued to change the ending date for the public comment period. Please also note that the phone number on the regulation comment contact has been removed below. Only written comments will be accepted on regulations.

You may comment on the proposed regulation changes, including the potential costs to private persons of complying with the proposed changes, by submitting written comments to:
