

All the wells tested outside the area marked were free of Sulfolane. Additional sampling and monitoring will confirm that there is no sulfolane moving beyond this boundary.

Few wells have been tested in the area north of the Richardson Highway. If you live in the area, please contact Jeff Cook at Flint Hills Resources, 488-5104 to have your water tested.

Sulfolane Area of Interest

Locational information is approximate. The data is to be used for purposes of reference only. This map was developed using the best available information and has undergone several iterations of quality control. Therefore the map is an accurate depiction of the data used to create it, but may still differ from the actual site conditions.

As of February 10, 2010

 Area of Interest

All of the wells tested outside of this area were free of Sulfolane. Additional sampling and monitoring will confirm that there is no sulfolane moving beyond this boundary.
