

**MEETING OF THE SOUTHEAST ALASKA
GRS STEERING & OPERATIONS/TACTICS COMMITTEE**

June 26, 2003

The GRS Steering and Operations/Tactics Committee, hereafter called the Committee, met in the ADEC Juneau offices from 10:00 to 10:45 am June 26, 2003.

The following individuals attended:

Dave Owings (SEAPRO) by teleconference
Scott Tiernan, ADEC
LT Darwin Jensen (USCG)
Deb Rudis (US F&W)
Lewis Sharman (GBNP)
Dave Eley (contractor)
Tim Robertson (contractor)

Proceedings

Having reviewed the final South East Alaska Geographic Response Strategies (GRS) on the ADEC web-site, <http://www.state.ak.us/dec/dspar/perp/grs/se/home.htm> the Committee members:

1. Noted that only slight editorial changes had noted. These had been addressed.
2. Reviewed and approved changes to *Situk River SE09-03* (chart changes), *Point Couverdon SE07-03* (some change in tactics after a site visit), and *Mendenhall River SE07-01* (change in tactics after site test/boom deployment).
3. Noted that the size of the exclusion zone at the *Brothers* rookery should be clarified. This will be corrected by the contractors before publication.
4. Recommended that ADEC develop policies and procedures for GRS web updates – perhaps once or twice a year on a schedule using standard forms. This would ensure the maps are kept current or updated as drills and site visits-of – opportunities are made.
5. Asked that a final CD (high resolution if possible) be distributed to Committee members. The contractors agreed to provide CD to the Committee and the SE AK SAWG.
6. **Recommended final approval** of the Southeast Alaska GRS.

Lewis Sharman Glacier Bay National Park and Preserve expressed his appreciation to ADEC for inviting and allowing NPS to participate in the work group process.
