INCIDENT OBJECTIVES ICS 202-CG		
1. Incident Name F/V Mar-Gun	2. Operational Period (Date / Time) From: MAY 7 09 10:00 To: MAY 14 09 10:00	
3. Objective(s) <ul style="list-style-type: none"> • Highest Priority of this Response is to Ensure the Safety of Citizens and Response Personnel • Protect environmental, historical, and cultural sensitive areas. • Remove fuel, persistent oils, and HAZMAT from vessel per established plan. • Identify subsistence areas in the trajectory of potential release and develop a sampling plan. • SCAT is on standby to be activated if new oil releases are observed from the vessel. • Ensure transparent communication with media, stakeholders and interested parties. • Maintain optimal administrative management of the vessel recovery operation; modify the vessel recovery plan as necessary to facilitate the safe, successful recovery of the vessel. • Properly handle and dispose of waste generated from the response. • Continue to assess vessel stability and stabilize as appropriate. 		
4. Operational Period Command Emphasis (Safety Message, Priorities, Key Decisions/Directions) <ul style="list-style-type: none"> • Report all injuries, incidents and close calls to the UC through your supervisor. • Fatigue issues for workers are of specific concern as the response continues. • Workers in cold weather require extra awareness, and extra caution should be taken to prevent cold weather injuries. • Report any sightings of oiled or impacted wildlife to the UC through the NOAA SSC(John Whitney). • While in the intertidal zone be especially mindful of slips, trips, falls and other water hazards. • Workers should advise their supervisor if they need essential supplies, i.e. prescriptions or special needs. • Workers are requested to complete daily ICS form 214a and provide them to their supervisor. This is to assist in documentation and to ensure work is properly compensated. • All media/press releases shall be routed through the UC for approval prior to release.

Mar-Gun Vessel Recovery Milestones

Date Finished	Milestones
4/7/2009	Fabricate Reinforcements/Bracing in the #1 Fishhold
4/8/2009	Weld foundations and install fairleads on aft deck port and starboard
4/9/2009	Strip residual oil out of 2,3,4, and 5 port wing tanks and transfer to Magone vessel
	Install air fittings to blow water out of the Fore/Aft Port Double Bottom Tanks and shaft alley
4/28/2009	Finish Engine Room hull repairs
	Finish Engine Room hull repairs resulting from pulling ops
5/6/2009	Repair port and/or starboard generators (Port Generator Operational 5/6/09)
4/29/2009	Reave 5/8" wire on 4 part blocks on port side outside of trawl alley (for 3rd, smaller offshore anchor)
4/16/2009	Reave Port Multi-Part blocks with 1" wire from trawl winch
4/20/2009	Reave Starboard Multi-Part blocks with 1" wire from trawl winch
4/22/2009	Install 1st offshore anchor (20k #)
4/27/2009	Install 2nd offshore anchor
4/29/2009	Install 3rd offshore anchor
4/19/2009	Spool balance of ship's 1" wire off of the port trawl winch and then transfer to shore with helo in ~400' sections
4/23/2009	Spool balance of ship's 1" wire off of the starboard trawl winch and then transfer to shore with helo in ~400' sections
4/30/2009	Remove nets from vessel to seaward using Redeemer
4/27/2009	Seal shaft alley covers in #1 Fish Hold and install air fittings.

4/28/2009	Seal shaft alley covers in #2 Fish Hold
4/30/2009	Seal shaft alley covers in #3 Fish Hold
	Lock down shaft to prevent rotation during towing (may be completed once off the beach)
4/30/2009	Remove rudder from the vessel if opportunity arises. Bolts heads have been burned off, and the pintle was damaged during the grounding, so the rudder should give rather than binding and causing more damage during the pull off.
	Remove rock pinnacle from near starboard quarter with blasting operations.
4/30/2009	Remove Residual Slops from Port 1 and 2 Double Bottoms
	Pull Mar-Gun off of the beach
