

Galena Forward Operation Location, Alaska

Agenda for the Triad Meeting on October 11, 2011:

- Safety Moment.
- Status update for field work activities.
- Review of action items and conclusions from previous Triad meeting. Approval of minutes.
- Discussion of new site data and evaluating progress towards Work Plan objectives.
 1. **DSWD and DS1769** – Discuss geophysical results
 2. **ST005**
 - a. Nature and extent investigation at source areas A, B, C, E, F, & the apron. Discuss proposed stepouts for soil.
 - b. Request approval for pipeline sampling (remaining portion of ST005 FSP)
 3. **SS014/SS017/SS021** – Nature and extent investigation. Discuss proposed stepouts for soil and groundwater.
 4. **SS015 Groundwater** –No stepouts are proposed. Lateral extent of the TCE plume has been determined via grab groundwater samples, and multiple well clusters have been installed downgradient of the source area.
 5. **Five new MWs** – request approval for 5 last wells of the season
 - a. **SS006 Source Area (cluster of 2 wells)**
 - b. **SS006 Upgradient (cluster of 2 wells)**
 - c. **SS005 Upgradient (1 well)**
- Identifying additional work needed and/or concurrence that Work Plan objectives have been met.
- Open discussion for other items.
- Schedule update for upcoming activities.
 - Next Triad call in 1 week; Tuesday October 18th; 10am AK time.
