# INCIDENT ACTION PLAN

The items checked below are included in this Incident Action Plan:

- ICS 202-OS (Response Objectives)

---

- ICS 203-OS (Organization List) - OR - ICS 207-OS (Organization Chart)

---

- ICS 204-OSs (Assignment Lists)  
One Copy each of any ICS 204-OS attachments:
  - Map
  - Weather forecast
  - Tides
  - Shoreline Cleanup Assessment Team Report for location
  - Previous day's progress, problems for location

---

- ICS 205-OS (Communications List)

---

- ICS 206-OS (Medical Plan)
- ICS 220-OS (Air Operations Summary)
- ICS 232-OS (Resources at Risk Summary)
- ICS 209-OS (Incident Status Summary)
- Oiled Wildlife Protocol
- Cultural Resource Policy
- Crew Recovery Policy/ Addendum to Site Safety Plan

4. Prepared by:  
Tim McKinna - Planning Section Chief

Date / Time  
12/25/04 15:10

**3. Environmentally-Sensitive Areas and Wildlife Issues**

| Site # | Priority | Site Name and/or Physical Location                               | Site Issues                                     |
|--------|----------|--|---|
|        | 1        | Anderson Bay   | High concentrations of birds and otters.        |
|        | 2        | Estuary on Northeast Side Skan Bay                               | Pink Salmon Spawning.                           |
|        | 3        | Head of east arm Skan Bay  | Red and Pink Salmon spawning stream.            |
|        | 4        | Southwest arm Skan Bay   | Marine Birds; otters; pink salmon               |
|        | ***      | Bald Eagles  | Bald eagles potentially prey on oiled carcasses |
|        | ***      | Foxes  | Foxes potentially pray on oiled carcasses.      |
|        |          | Shorebirds including black oystercatchers along intertidal areas |   |

**Narrative**

-Priority to protect bird conc. and pink/red salmon spawning streams. 10 salmon streams Makushin Bay, 3 heads of streams, priority areas for protection, volcano lakes, Humpback Bay, and 2 streams.  
 -Steller's Eiders numbers expected to increase. (Threatened Species)  
 -Emperor Goose numbers expected to increase  
 -Both Makushin and Skan Bay need on-water and shore based wildlife surveys  
 -Both bays also important for number of commercial fisheries including bottomfish and crab

**4. Archaeo-cultural and Socio-economic Issues**

**AIR OPERATIONS PLAN**  
ICS 220-OS

2. Operational Period (Date / Time)  
From: 12/26/04 0600 TO 12/27/04 0600

1. Incident Name  
SELENDANG AYU

3. Distribution  
Fixed-Wing Bases DUTCH HARBOR Helibase DUTCH HARBOR

5. Remarks (Spec. Instructions, Safety Notes, Hazards, Priorities)  
-All operations depend on weather and sea state  
-Prior to operating within 10 NM of MV SELENDANG AYU make a traffic call to 122.6 to make on-scene aircraft aware of your flight  
-Boom deployment operations dependent on arrival of A-Star

4. Personnel and Communications

## Dead, oiled wildlife handling protocol for non-USFWS personnel (revised 12/22/04)

During oil spill response, all wildlife carcasses (even if decomposed or scavenged) must be collected to prevent secondary oiling of other wildlife.

BE SURE to observe the animal carefully to ensure that it is dead.  
BE SURE to wear proper personal protective equipment (including gloves) to protect yourself from oil exposure.

### 1. Bird carcasses

When collecting dead birds, place each carcass in a plastic bag (one bird per bag), secure the bag tightly (with a knot or tape), and attach an identification tag that includes all of the following information:

- Date
- Time
- Location (segment or lat/long)
- Collector's name

Keep the bagged carcasses cool and transport to or notify the *MV Exito*, *MV Norseman*, or *MV Tiglax* as soon as possible.

Equipment needed:

- Plastic bags
- Duct tape
- Identification tags

### 2. Marine mammal carcasses

If you encounter a dead sea otter or other marine mammal, notify the USFWS on the *MV Exito*, *MV Norseman*, or *MV Tiglax* or at the Incident Command Center immediately!! Record the location and mark it if possible. Only collect the carcass if instructed by the USFWS.

**CULTURAL RESOURCE POLICY**  
**M/V Selendang Ayu Cleanup**

The State of Alaska's policy regarding cultural resources (stated in the Alaska Historic Preservation Act) is:

*"to preserve and protect the historic, prehistoric and archaeological resources of Alaska from loss, desecration and destruction so that the scientific, historic and cultural heritage embodied in these resources may pass undiminished to future generations."*

The Unified Command of this cleanup supports this policy and responders' compliance with state and federal laws protecting cultural resources. The oil spill response includes a program to ensure that cultural resource sites are properly identified and protected during cleanup operations. Response personnel play a key role in this program by being aware of their responsibilities under State and Federal law, and by dealing with sites properly if and when they are encountered. Whenever personnel encounter or discover an archaeological site or artifact, they are required to:

1. Leave cultural materials in place at the site of discovery, and mark their location.
2. Stop cleanup work in the vicinity surrounding the site.
3. Inform the FOSC's Historic Properties Specialist and the Shoreline Cleanup Assessment Team archaeologist immediately.

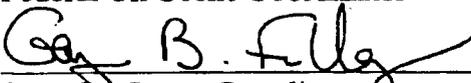

The Alaska Historic Preservation Act prohibits collecting or tampering with protected cultural resources, including artifacts, fossils, human skeletal remains, and other items of antiquity, and *violation of the act is a crime*. In addition, federal concern for cultural resources is expressed in a number of laws and regulations, violation of which may result in significant fines and imprisonment.

**All oil spill response personnel (employees and their contractors) must comply with this Cultural Resource Policy:**

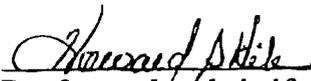

*Anyone found vandalizing, moving, or taking away cultural materials may be subject to disciplinary actions up to and including immediate dismissal from their work, and an incident report may be filed with law enforcement authorities, requesting prosecution under applicable law.*

## ADDENDUM TO SITE SAFETY PLAN

Because of military activity during World War II, Unexploded Ordnance (UXO) can exist anywhere on Unalaska Island. Unexploded ordnance comes in nearly every shape size, from rifle cartridges to baseball-sized hand grenades to SCUBA tank-sized bombs.

If you find unexploded ordnance, follow these simple rules:

- First, don't touch it! Do not pick up, move, or disturb.
- Flag the area and notify your field supervisor immediately.]
- Discontinue Operations in the area of suspected UXO.

Report all findings to:
