

NANA Oilfield Services, Inc

NANA Oilfield Services, Inc Truck incident

- On June 7th one of NOSI's trucks went off the road at milepost 299
- Estimated that 2,500 gallons of fuel was spilled

NANA Oilfield Services, Inc

Actions Taken

- On June 7th
 - Notified State agency immediately
 - Initial NOSI responders were dispatched from Deadhorse
 - Upon arrival Alyeska and DOT personnel were already on site assisting driver
 - Driver was taken to pump station 4 for medical attention
 - Remaining fuel removed from trailer
- On June 8th
 - Engaged environmental/response crews for assistance (Chadux & Emerald)
 - Truck removed from site
 - Instituted a safety stand down for trucking operations from Fairbanks to Slope
 - Dispatched stage two spill response equipment and State/contractor responders

NANA Oilfield Services, Inc

Actions Taken

- On June 9th
 - Established Unified Command
 - Identified stakeholders
 - State on scene coordinator
 - Federal on scene coordinator
 - North Slope Borough on scene coordinator
 - Alyeska representative
 - Contractor representatives
 - Developed & distributed approved incident action plan (IAP)
 - Defined NOSI employee participants and roles
 - Worked out logistics
 - Housing – not in Deadhorse due to location
 - Food – need to feed responders
 - Equipment – response equipment, transportation for responders
 - Supplies – bug dope, safety gear, radios
 - Permits – work being done for location, lane closure, Alyeska
 - Secondary responders begin work

NANA Oilfield Services, Inc

Actions Taken

- June 10th
 - Began 24 hour response operations
 - Total of 34 people on site
 - Modified response efforts
- June 12/13th
 - Began flushing operations
- June 17th
 - Excavation activities occur
- June 24th
 - Wrap up operations

NANA Oilfield Services, Inc

What Worked Well

- Quick response
 - Removing truck/trailer
 - Dispatching initial & secondary responders
 - Stakeholders
 - Unified command
 - State/federal cooperation
 - Contractor cooperation
 - Teamwork
-
- Allowed for a two week response (from incident to completion of clean up efforts)

NANA Oilfield Services, Inc

Improvement Areas

- First live spill response for most of NOSI team
- Communication
 - To parent organization
 - External parties
- Engage NOSI employees sooner (finance/safety)
- Logistics plan (housing, food, transportation)
 - Need to respond quickly but are limited until essentials are in place
- Responder roles
 - Had two spill responders involved

NANA Oilfield Services, Inc

Surprise Moments

- Location added complexity (2 hours out of Deadhorse)
- State of Alaska situation reports
- News coverage
- Near run-off area (adds complexity)
- Determining whose land incident was on (near border of different State agencies)
- Occurred over Alyeska gas pipe to pump 4
