Category/Equipment	Vendor	Address	Phone	Cost	Comments
Photoionization Detectors (VOC Screening/Surveying)	Hannah Instrumentation	Anchorage, AK	907-694-6807	Typical Costs: \$75-\$100/day; \$250-\$300/week	Note: Costs may not include low range calibration gas. Typical cost (new) for calibration gas is \$125.
Photoionization Detectors (VOC Screening/Surveying)	TTT Environmental	Anchorage, AK	907-770-9041		
Photoionization Detectors (VOC Screening/Surveying)	PSI Environmental	Anchorage, AK	907-272-8010		
Photoionization Detectors (VOC Screening/Surveying)	Shannon & Wilson, Inc.	Anchorage, AK & Fairbanks, AK	907-561-0600 & 907-479-0600		
Photoionization Detectors (VOC Screening/Surveying)	Young's Firehouse	Anchorage, AK	907-344-5312		
10 cm X 10 cm Wipe Sample Templates, Disposable	SKC West, Inc.	Fullerton, CA	800-752-9378	Typical Cost: \$44/ 250 Templates	Used for collecting wipe samples.
Methamphetamine Simons Reagent Test (Field Screening)	MISTRAL	Bethesda, MD	800-964-7872; 301-913-9366	\$50/ 100 Tests; \$20/ 10 Tests	Measurement System: MISTRAL (r) Spray Reagent. Measurement Method: Reagent is sprayed on to wipe or vacuum sample. If color appears methamphetamine concentration exceeds cleanup standard. Detection Limit: 1.0 ug/100 cm ³ . Cleanup Standard: 0.1 ug/100 cm ³ .

Low Flow Sampling Pump (Mercury in Air Sampling)	Shannon & Wilson, Inc.	Anchorage, AK & Fairbanks, AK	907-561-0600 & 907-479-0600	\$15/day	Tubes can be purchased from SKC West, Inc. (see below)
Sampling Pump & Sorbent Tube (Mercury in Air Sampling)	SKC West, Inc.	Fullerton, CA	800-752-9378	Series 222 Low Flow Pump Kit: \$75/week; DC Light Calibration Kit: \$95/week; SKC #226-17-1A Sorbent Tubes: \$80/50 Tubes	Note: NIOSH 6009 Sampling Pump & Sorbent Tube. Costs do not include shipping. 1 week minimum. Credit card required.
XRF Spectrometer (Lead Screening and Analysis)	Niton LLC	Bend, OR	877-255-6943/ 541-388-0779	Typical Costs: \$500-\$1000/day	Note: Many XRFs have a radioactive source, and require HAZMAT training to ship. May be cost prohibitive. Use of lead wipes and subsequent laboratory analyses is more cost effective, but does not provide real-time data.
HEPA Sock Vacuum Sampling System	Midwest Filtration Company	Cincinnati, OH	513-874-6510	XL-2000 Dust Collection Assembly (HEPA Vacuum Sampler): \$200/purchase; Dust Collection Kits (sock, nozzle, and sample vial): \$400/case of 50	Note: Costs do not include shipping.
