## UNDERGROUND STORAGE TANKS ALASKA DEPARTMENT OF ENVIRONMENTAL CONSERVATION

**Facility** 

## TAKEN OUT OF SERVICE OR TEMPORARY CLOSURE

Notification is required for a UST system installed or in service after January 1, 1974, and taken out of service or temporarily closed after that date (18 AAC 78.020). "Taken out of service" means a tank is empty, vented and locked. "Temporary Closure" means a tank contains product but is not being used. Both are subject to a UST Operations Inspection every three years by a certified UST Inspector.
