KGRS-57-01 	Kinak Bay Nearshore waters in the general area of: Lat. 58° 08.7 N Lon. 154°26.6 W	Free-oil Recovery Maximize free-oil recovery in the offshore & nearshore environment of Kinak Bay depending on spill location and trajectory.	Deploy free-oil recovery strike teams upwind and up current of the Kinak Bay. Use aerial surveillance to locate incoming slicks.	Deploy multiple free-oil recovery strike teams as required to maximize interception of oil before it impacts sensitive areas.	Vessel Platform	Via marine waters Chart 16576-1	Same as KGRS-57-02	Vessel master should have local knowledge. Use extreme caution, shoal waters with numerous reefs and rocks.
KGRS-57-02 	Kinak Bay a. Lagoon Lat. 58° 10.97 N Lon. 154°26.88 W b. Hidden Harbor Lat. 58° 11.50 N Lon. 154°29.12 W c. Salmon Stream Lat. 58° 09.81 N Lon. 154°27.94 W	Exclusion Exclude oil from impacting the identified lagoon, Hidden Harbor and salmon stream in Kinak Bay.	Deploy anchors and boom with skiffs (class 6) at high tide. Place 450 ft. protected-water boom in a chevron pattern across the opening to the lagoon. Place 600 ft. in a chevron pattern across the entrance to Hidden Harbor. Use pitons for anchors on the eastern shore. Use large anchor systems for both apexes. For the stream, place 30 ft. of tidal seal boom on both ends and complete the array with 100 ft. protected-water boom. Tend throughout the tide. <u>Boom Lengths:</u> a. 450 ft. protected-water boom b. 600 ft. protected-water boom c. 100 ft. protected-water boom 60 ft. tidal-seal boom	Deployment Equipment 1150 ft. protected-water boom 60 ft. tidal-seal boom 4 ea. small anchor systems 1 ea. piton anchor system 2 ea. large anchor systems 10 ea. anchor stakes Vessels 1 ea. class 3 1 ea. class 6 Personnel/Shift 5 ea. vessel crew Tending Vessels 1 ea. class 3 1 ea. class 6 Personnel/Shift 3 ea. vessel crew	Vessel platform	Via marine waters Chart 16576-1	Fish- intertidal spawning- salmon (May-Sept.), herring (April-May) Birds-waterfowl concentration, eagle nesting, seabird nesting Marine mammals- otters, seal, sea lions Habitat- marsh, sheltered rocky shoreline.	Vessel master should have local knowledge. A large population of bears forage on the tidal flats in the spring and are present during salmon runs. A bear guard is required. Title 41 permitting required from ADNR. Site surveyed: 7/11/06 KGRS Tactics Committee. Tested: not yet
