

Map & Photo Legend

Pauls Bay and Pauls Lake viewed from the south.

-  Free-oil Containment and Recovery, Shallow Water
-  Exclusion Booming
-  Tidal-seal Boom
-  Cabins (Alaska Department of Fish & Game)
-  Bears in Area, Guards Recommended

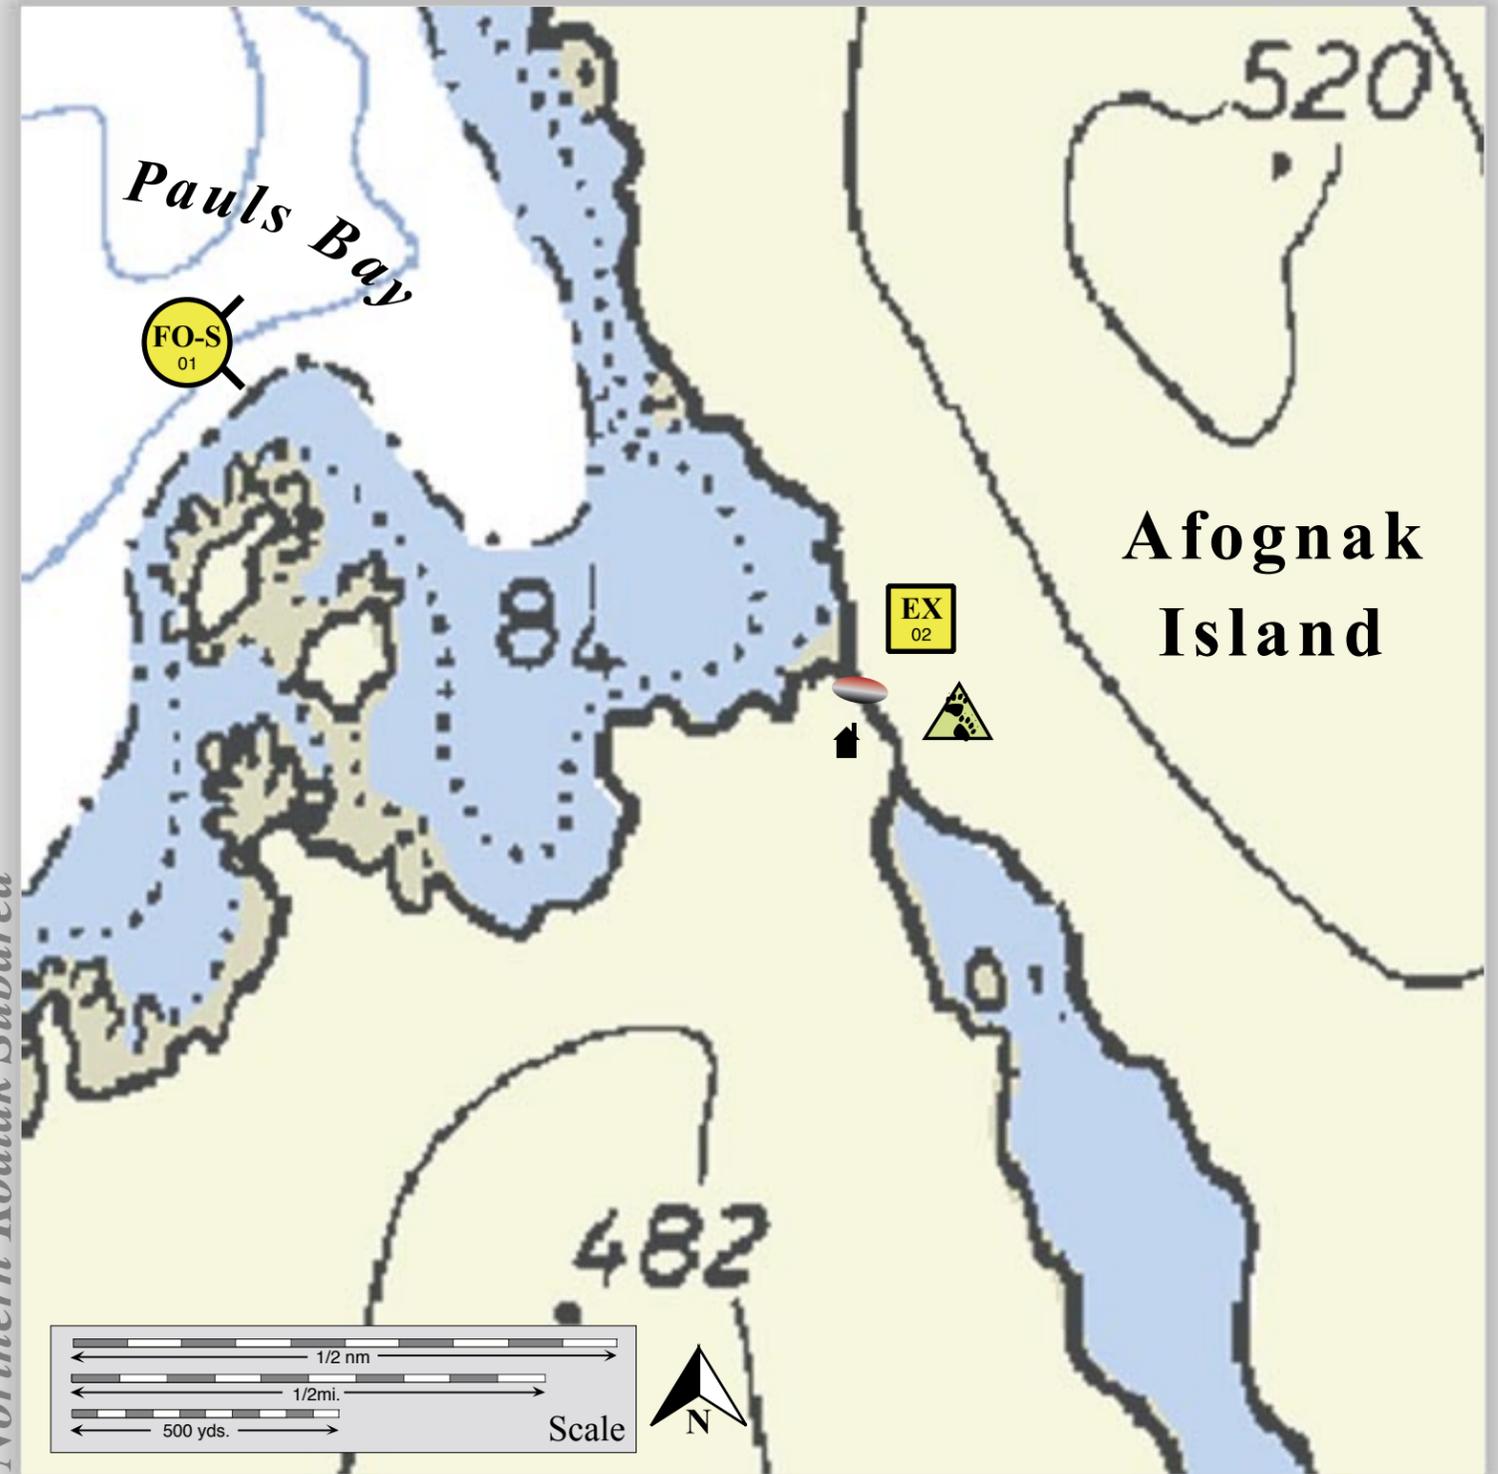

EX-02 in the small stream between Pauls Bay and Pauls Lake.

Pauls Bay, K-46

Center of map at 58° 23.7' N Lat., 152° 21.2' W Lon.

Geographic Response Strategies for Northern Kodiak Subarea

This is not intended for navigational use.

Soundings in fathoms

ID	Location and Description	Response Strategy	Implementation	Response Resources	Staging Area	Site Access	Resources Protected (months)	Special Considerations
K-46-01 	Pauls Bay Nearshore waters in the general area of: Lat. 58° 23.6 N Lon. 152°21.6 W	Free-oil Recovery Maximize free-oil recovery in the offshore & nearshore environment of Pauls Bay depending on spill location and trajectory.	Deploy free-oil recovery strike teams upwind and up current of Pauls Bay. Use aerial surveillance to locate incoming slicks.	Deploy multiple free-oil recovery strike teams as required to maximize interception of oil before it impacts sensitive areas.	Kodiak/Homer/ Kitoi Bay Hatchery	Via marine waters Chart 16604-1	Same as K-46-02	Vessel masters should have local knowledge. Use extreme caution, shoal waters with numerous reefs and rocks.
K-46-02 	Pauls Bay Lat. 58° 23.50 N Lon. 152°20.31 W	Exclusion Exclude oil from impacting the stream in Pauls Bay.	Deploy anchors and boom with skiffs (class 6). Place tidal-seal boom across the small stream. Tend throughout the tide.	In a large response, resources used for deployment and tending can be requisitioned from other strategies to implement K-46. Deployment Equipment 100 ft. tidal-seal boom 1 ea. small anchor systems 4 ea. anchor stakes Vessels 1 ea. class 3 1 ea. class 6 Personnel/Shift 5 ea. vessel crew Tending Vessels 1 ea. class 6 Personnel/Shift 3 ea. vessel crew	Vessel platform ADF&G maintains a small cabin in Pauls Bay which may provide logistic and lodging support.	Via marine waters Chart 16604-1	Fish- intertidal spawning-salmon (May-Sept.),herring(April-May) Birds-waterfowl concentration, eagle nesting, seabird nesting Human Use-commercial fishing Marine mammals- seals, otters Habitat- sheltered rocky shore, sheltered tidal flats	Vessel masters should have local knowledge. FOSC Historic Properties Specialist should INSPECT this site prior to deployment. Title 41 permitting required from ADNR. A large bear population exists in the area; bear guards may be necessary. Site surveyed: 7/23/05 KGRS Tactics Committee. Tested: not yet
