

ID	Location and Description	Response Strategy	Implementation	Response Resources	Staging Area	Site Access	Resources Protected (months)	Special Considerations
KGRS-50-01 	<b>Ninagiak River</b> Nearshore waters in the general area of:  Lat. 58° 25.7 N Lon. 154°02.7 W	<b>Free-oil Recovery</b> Maximize free-oil recovery in the offshore & nearshore environment of Ninagiak River depending on spill location and trajectory.	Deploy free-oil recovery strike teams upwind and up current of the Ninagiak River.  Use aerial surveillance to locate incoming slicks.	Deploy multiple free-oil recovery strike teams as required to maximize interception of oil before it impacts sensitive areas.	Vessel Platform	Via marine waters  Chart 16608-1	Same as KGRS-50-02	Vessel master should have local knowledge.  Use extreme caution, shoal waters with numerous reefs, rocks and extensive tidal flats.
KGRS-50-02 	<b>Ninagiak River</b> a. Lat. 58° 28.61 N Lon. 154°04.56 W Salmon Stream  b. Lat. 58° 29.37 N Lon. 154°02.87 W	<b>Exclusion</b> Exclude oil from impacting the Ninagiak River and the identified salmon stream.	Deploy anchors and boom with skiffs (class 6) at high tide.  For (a) place 30 ft. of tidal-seal at both ends and complete in a chevron pattern with 300 ft. of protected-water boom. For (b) place 60 ft. of tidal-seal boom across the cut in the beach at the high tide mark.  Adjust both arrays to accommodate the ocean swell.  Tend throughout the tide.	<b>Deployment Equipment</b> 300 ft. protected-water boom 120 ft. tidal-seal boom 2 ea. small anchor systems 8 ea. anchor stakes <b>Vessels</b> 1 ea. class 3 1 ea. class 6 <b>Personnel/Shift</b> 5 ea. vessel crew/general techs <b>Tending Vessels</b> 1 ea. class 3 1 ea. class 6 <b>Personnel/Shift</b> 3 ea. vessel crew/general techs	Vessel platform	Via marine waters  Chart 16608-1	Fish- intertidal spawning-salmon (May-Sept.)  Birds-waterfowl concentration, eagle nesting, seabird nesting  Marine mammals- otters, seal  Habitat- marsh, sheltered rocky shoreline, exposed tidal flats.  Human use – wildlife viewing	Vessel master should have local knowledge.  Seasonal Hallo Bay Wilderness Lodge located at the Kaguyak village site may provide support and local knowledge.  A large population of bears forage on the tidal flats in the spring and are present during salmon runs. A bear guard is required during these periods.  Title 41 - Fish Habitat Permit required from ADNR.  Site surveyed: 7/13/06 KGRS Tactics Committee.  Tested: not yet
