S-05-01 	<b>Lopp Lagoon</b> Nearshore waters in the general area of: Lat. 65° 48.60 N Lon. 167°51.57 W	<b>Free-oil Recovery</b> Maximize free-oil recovery in the offshore & nearshore environment of Lopp Lagoon depending on spill location and trajectory.	Deploy free-oil recovery strike teams upwind and up current of Lopp Lagoon.  Use aerial surveillance to locate incoming slicks.	Deploy multiple free-oil recovery strike teams as required to maximize interception of oil before it impacts sensitive areas. Aerial survey recommended prior to deployment. Adjust equipment requirements to reflect additional breaches.	Deploy anchors and boom with skiffs (class 6).  Place 5300 ft. of protected-water boom in a chevron pattern in front of the entrance to the lagoon. If the sea state does not allow this deployment, move further inside the entrance.
