

PLEASE JOIN US FOR THE NOME OIL SPILL PREPAREDNESS SEMINAR

JUNE 14-15, 2016

This seminar is open to the public. Agenda topics include: Introduction to Oil Spill Contingency Planning; Upcoming Northwest Arctic Subarea Committee activities; Oil Spill Removal Organizations with Alaska Chadux; Incident Command System; and briefs from the U.S. Coast Guard, U.S. Environmental Protection Agency, and Alaska Department of Environmental Conservation.

The second day, June 15th, will consist of an oil spill equipment deployment demonstration at a location to be determined.

For more information contact Matthew Mitchell @ (907) 428-4111 or matthew.j.mitchell2@uscg.mil

SPONSORED by the
NORTHWEST
ARCTIC SUBAREA
COMMITTEE

Subarea contingency plans are essential building blocks of community emergency preparedness. They provide detailed information on local resources, response priorities, hazardous materials management procedures, and response countermeasures, and they integrate federal, state, tribal, local and industry capabilities. Subarea committees, led by governmental agencies with pollution-response authority, need *your* knowledge about local priorities and concerns to effectively manage plan updates. Subarea committees provide one of your best opportunities to get involved.

LOCATION

University of Alaska Fairbanks
